Let's Play Jeff A. Johnson, Denita Dinger, 2014-03-10 Let children experience the learning

power of play Let's Play is a handbook full of child-led open-ended learning adventures. The 39 fresh fun and budget-friendly activities plus more than 225 play variations are packed with learning that helps children develop important motor, cognitive, language, and social skills. These activity starters were all tested by a slew of early childhood professionals and approved by the children they work with. Building on the early learning principles presented in the author team's first book together, Let Them Play: An Early Learning Curriculum, they also support your transition to a play-based child-led curriculum. Jeff A. Johnson has more than twenty years of early childhood experience as a former child care center director and current family child care business owner. He is a popular keynote speaker, trainer, and author of six books. Denita Dinger has been a child care provider for more than ten years and is a frequent speaker at early childhood conferences focusing on the topics of hands-on and play-based learning. This is her second book.

Solving the Reading Riddle Rita Soltan, 2010-04-15. This book explores what the past 75 years of reading instruction has meant to children, teachers, and parents, and how children's librarians and school media specialists are a crucial part of the developing philosophy and strategy. As a children's librarian, you are increasingly being called upon to support schools and parents in teaching children to read from early literacy initiatives and read-alouds to parent workshops and collection development endeavors. Yet if you're like most public librarians, you probably have no clue as to what reading strategies other educators use. Understanding reading instruction theory and practice can help you function better in these roles and communicate more effectively with other educators and parents.

Solving the Reading Riddle: The Librarian's Guide to Reading Instruction explains the theories and shows you how to effectively integrate reading instruction theory into your roles as reading advocate, family reading coach, partner with educators, and keeper of the books. Designed for public librarians, this book is also beneficial reading for LIS students in children's librarianship courses and for teacher librarians needing more information on this topic.
