perceived duties and responsibilities of their country in international politics Further through two case studies on missile defence policies and textbook disputes this study investigates actual foreign policy behaviour in order to question the assertion that post Cold War Germany and Japan are following very different paths Providing a much needed new analysis of German and Japanese foreign policies this book will be of great use to students and scholars interested in Japanese politics German politics comparative politics and international relations more generally *Countering Holocaust denial and distortion through education* UNESCO,2025-01-27
