**Paramedic Principles and Practice in the UK - E-Book** Aidan Ward, 2023-04-13 Paramedic Principles and Practice in the UK is a key textbook designed to support paramedicine students in this country throughout their studies. The volume takes a practical approach with case histories covering a broad range of clinical presentations and treatments, all incorporating a patient-centric perspective that acknowledges the longer patient journey. This must-have textbook will not only arm readers with technical knowledge and expertise but also with the non-technical principles of the profession, developing future paramedics who are able to provide a safe and effective management plan in the out-of-hospital environment. Aligned to UK paramedicine curricula, more than 40 detailed case studies covering essential pathologies most commonly seen by UK paramedics, as well as less typical scenarios, evidence-based clinical decision-making models to support paramedics in practice, essential physiological concepts to help readers bridge the gap from principles to practice, focus on the wellbeing of both the patient and the paramedic, and useful appendices including medications commonly encountered in paramedic settings.

**Home Birth - E-Book** Anna-Marie Madeley, 2023-07-15 As the rate of homebirth increases in the UK, this important new book offers a basic practical guide for anyone involved in the planning, resourcing, and facilitation of safe and respectful birth at home. Blending both contemporary academic and clinical practice, this textbook covers the whole scope of home birth practice, from antenatal care, delivery, and postnatal care, as well as management of emergencies at home and practical advice for managing transfer. Facilitating a safe home birth requires a robust multidisciplinary team approach. Whatever your role in planning or attending a birth at home, and whether you are a student practising, midwife, paramedic, or obstetrician, this resource will have something for you. Covers the whole scope of home birth practice for each member of the multidisciplinary team. Written by leading experts from diverse backgrounds, including midwives, paramedics, obstetricians, and neonatal nurses from clinical practice, academia, and education. Presents balanced and unbiased contemporary evidence supporting birth at home. Discusses effective care planning, from developing a homebirth service, practical resources, and skills, equipment, planning, and geographical considerations. Covers important topics within midwifery, including the rise of freebirthing, multidisciplinary team working, and the care of women with complex biopsychosocial needs or from underrepresented communities. Clearly identifies roles and responsibilities of the multidisciplinary team. Suitable for midwifery students embarking on a home birth placement.

**Mental Health: Intervention Skills for the Emergency Services** Tricia Scott, 2023-03-28 This book addresses the practical management of mental health scenarios in the emergency setting and offers first-hand reflections on how emergency nurses, practitioners, and allied mental health professionals handle these situations. Responding to mental health needs in emergency situations can be profoundly complex. Frequently, emergency nurses and other personnel express their feelings of powerlessness as they do not know what to say or do in order to achieve the best outcome and have concerns that their intervention may make the situation worse for those in

their care How a practitioner confronts the mental health encounter and takes the essential steps in managing the event can have a critical impact on how that person copes in the future This book helps readers understand what is involved in mental health work in emergency situations and the practical psychosocial and spiritual tensions that arise from managing the event and the sequelae Moreover it shows that it may be possible to provide a more effective emergency mental health service This unique edited book presents critical reflections on aspects of mental health work gathered from the hands on experiences of the personnel Mental health encounters in the emergency context are described in detail illustrating not only what emergency nurses and mental health workers do when mental health crises occur but also what they feel about what they do Written by a diverse team of emergency and mental health nurses and allied professionals currently engaged in emergency care both in hospital and pre hospital settings this book will appeal to emergency nurses and allied health professionals alike
