Gender and Judicial Education Ulrike Schultz,T. Brettel Dawson,Gisela Shaw,2018-04-19 Judicial Education has greatly expanded in common law countries in the past 25 years More recently it has become a core component in judicial reform programs in developing countries with gender attentiveness as an element required by donor agencies In civil law jurisdictions judges schools have long played a role in the formation of the career judiciary with a focus on entry to the judicial profession in some countries judges get an intensive in service education at judicial academies Gender questions however tend to be neglected in the curricula These judicial education activities have generated a significant body of material and experience which it is timely to review and disseminate Questions such as the following require answers What is the current state of affairs How is judicial education implemented in developed and developing countries all around the world Who are the educators Who is being educated How is judicial education on gender regarded by judges How effective are these programs The chapters in this book deal with these questions They provide a multiplicity of perspectives Six countries are represented of these four are civil law countries Germany Argentina Japan Bosnia and Herzegovina and two are common law countries Canada Uganda This book was previously published as a special issue of International Journal of the Legal Profession *Resources in Vocational Education* ,1980 ugc net political science unit 6 book with 400 question answer (theory +mcq) as par updated syllabus DIWAKAR EDUCATION HUB,2023-02-06 ugc net political science unit 6 book with 400 question answer theory mcq as par updated syllabus **Resources in Education** ,2001 **Creative Education, Teaching and Learning** Gayle Brewer,Russell Hogarth,2018-11-22 Educators and education policy has increasingly acknowledged the value of creativity and creative approaches to education in particular This book highlights a range of innovative teaching techniques successfully employed by teachers from a range of disciplines and education levels in order to share knowledge regarding creative education **Department of Transportation and Related Agencies Appropriations for Fiscal Year 1998** United States. De Ferranti,2003 The fundamental elements to unlocking the potential of technology to speed up economic growth in Latin America and the Caribbean LAC are investing in education opening up new technologies through foreign trade and investment and encouraging private sector research and development Closing the Gap in Education and Technology advises Latin American and Caribbean governments to address the region s deficits in skills and technology and thereby boost productivity ultimately improving growth prospects

To close this productivity gap in the region the report calls for a range of policy approaches and strategies depending on a country's level of development. It identifies three progressive stages in a country's technological evolution: adoption, adaptation, and creation, and observes that policies should be designed to address the particular challenges that accompany each stage. In conclusion, Closing the Gap in Education and Technology argues that many countries in the Latin American and Caribbean region have been improving education and social risk management systems so that they are now ready to benefit from the rewards associated with creating stronger trade and technology ties with countries that are more technologically advanced.

E-Learning for GP Educators John Sandars, Mayur Lakhani, Dr. Ian Banks, 2018-10-08. This work includes a Foreword by Mayur Lakhani, Chairman of Council Royal College of General Practitioners. General practitioners as a widely dispersed group are particularly reliant on e-learning. This book provides an overview of the topic and examines the past, present, and future challenges, opportunities, and benefits. With chapters devoted to creating a website, running short courses, and standards and accreditation, this guide explores both vocational training and continuing professional development. It presents an evidence-based practical approach for healthcare educators and practitioners with teaching responsibilities, course organisers, and healthcare professionals with an interest in e-learning. Excellent leading edge. As a practising GP, I know just how hard it can be to keep up to date in a generalist discipline and showing progress. Having access to information is the straightforward bit; processing it and embedding it into clinical practice is the much bigger challenge, as this book rightly points out. As a user of e-learning, I know how useful this technique can be if undertaken properly and to a defined standard. I have no doubt that this book will be a valuable contribution to creating an innovative learning culture and society in healthcare. Mayur Lakhani in his Foreword.
