

A photograph of a natural swimming pool, also known as a bio-swimming pool. The pool is surrounded by dense greenery, including tall reeds and various shrubs. The water is clear and blue, reflecting the surrounding foliage. The pool is built into a natural depression in the ground, with a sandy and pebbly bottom. The overall atmosphere is serene and natural.

A STEP-BY-STEP GUIDE TO BUILDING A NATURAL SWIMMING POOL

Natural Swimming Pools Guide Building

Michael Littlewood

Natural Swimming Pools Guide Building:

Natural Swimming Pools Michael Littlewood, 2008 If you wish to swim in clear soft water and have a beautiful garden feature all year round you will need this book to create your own paradise If you have had some experience of building work and are keen to build your own natural swimming pool with or without some specialist assistance then this book will provide you with everything you need to know It contains over 80 illustrations and coloured photographs and takes you through the whole process in an easy to understand way It also contains over 50 useful detailed scaled construction drawings Michael Littlewoods methods and designs come from his considerable experience as a natural landscape architect and garden designer This book is a logical follow on from *Natural Swimming Pools Inspiration for Harmony with Nature* with new details on everything from building instructions and assessing and maintaining water quality to considering types of plants and handling maintenance

How to Build a Natural Swimming Pool Wolfram Kircher, Andreas Thon, 2016-03-31 Natural swimming pools are the biggest news for gardeners since green roofs The water is cleaned by aquatic plants instead of chlorine so it is gentle on the eyes and healthy for swimmers These self cleaning ecosystems are beautiful to look at and provide a valuable water source for dragonflies honeybees and other beneficial insects Wolfram Kircher has researched extensively into the low nutrient dependent plants that are needed for the surrounds of natural swimming pools and the high nutrient dependent plants that are required for the regeneration zone In the book he demonstrates how to maintain the nutrient level in perfect balance to keep down the algae down and water sparkling The authors have installed pools for decades and trialled different systems and plants to come up with the best possible designs

Natural Swimming Pools Michael Littlewood, 2008 This book is a necessary resource for anyone interested in having a natural swimming pool and shows how a natural swimming pool system works as well as the environmental health and safety benefits it offers Drawings diagrams and charts cover planning design biology materials construction planting and maintenance Over 300 beautiful color pictures feature projects that will inspire you to have your own natural water garden where you can swim in harmony with nature at any time

A Guide to Building Natural Swimming Pools Michael Littlewood, 2016 This book is specifically designed for those interested in creating natural swimming pools It covers all stages from understanding the system management excavation lining walling plumbing electrical planting structures and last but not least the maintenance to ensure a successful project Comprehensive information is presented in an easy to understand style with many illustrations showing methods of building These are supported by the helpful inclusion of detailed scaled drawings a plant guide with hardiness zones and other useful information The techniques will provide confidence to tackle the project and on completion give a huge sense of satisfaction and many hours of enjoyment
