Cartographies of Place Michael Darroch, Janine Marchessault, 2014-03-01 Media are incorporated into our physical environments more dramatically than ever before, literally opening up new spaces of interactivity and connection that transform the experience of being in the city. Public gatherings and movement, even the capabilities of democratic ideology, have been redefined. Urban Screens, mobile media, new digital mappings and ambient and pervasive media have all created new ecologies in cities. How do we analyze these new spaces? Recognition of the mutual histories and research programs of urban and media studies is only the beginning. *Cartographies of Place* develops new vocabularies and methodologies for engaging with the distinctive situations and experiences created by media technologies which are reshaping, augmenting and expanding urban spaces. The book builds upon the rich traditions and insights of a post-war generation of humanist scholars, media theorists and urban planners. Authors engage with different historical and contemporary currents in urban studies which share a common concern for media forms, either as research tools or as the means for discerning the expressive nature of city spaces around the world. All of the media considered here are not simply free-floating but are deeply embedded in the geopolitical, economic and material contexts in which they are used. *Cartographies of Place* is exemplary of a new direction in interdisciplinary media scholarship, opening up new ways of studying the complexities of cities and urban media in a global context.

Lemon-Aid Used Cars and Trucks 2010-2011 Phil Edmonston, 2010-05-11 The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about. The Globe and Mail's Lemon Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs and sets out the prices you should pay. As Canada's automotive Dr. Phil for over 40 years, Edmonston pulls no punches. His Lemon Aid is more potent and provocative than ever.
