Chapter 1 Test

MULTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the question.

- 1) Determine whether the given description corresponds to an experiment or an observational study. A stock analyst selects a stock from a group of twenty for investment by choosing the stock with the greatest earnings per share reported for the last quarter.

A) Observational study

B) Experiment

Objective: Exam A

- 2) Identify which type of sampling is used. The name of each contestant is written on a separate card, the cards are placed in a bag, and three names are picked from the bag.

A) Stratified

B) Simple Random

C) Convenience

D) Cluster

E) Systematic

Objective: Exam A

- 3) Identify which type of sampling is used. To avoid working late, a quality control analyst simply inspects the first 100 items produced in a day.

A) Stratified

B) Simple Random

C) Convenience

D) Systematic

E) Cluster

Objective: Exam A

- 4) An education expert is researching teaching methods and wishes to interview teachers from a particular school district. She randomly selects ten schools from the district and interviews all of the teachers at the selected schools. Does this sampling plan result in a random sample? Simple random sample? Explain.

A) Yes; yes. The sample is random because all teachers have the same chance of being selected. It is a simple random sample because all samples have the same chance of being selected.

B) Yes; no. The sample is random because all teachers have the same chance of being selected. It is not a simple random sample because some samples are not possible, such as a sample that includes teachers from schools that were not selected.

C) No; yes. The sample is not random because teachers in small schools are more likely to be selected than teachers in larger schools. It is a simple random sample because all samples have the same chance of being selected.

D) No; no. The sample is not random because teachers in small schools are more likely to be selected than teachers in larger schools. It is not a simple random sample because some samples are not possible, such as a sample that includes teachers from schools that were not selected.

Objective: Exam A

From publisher description: **Threats to Springs in a Changing World** Matthew J. Currell, Brian G. Katz, 2022-12-08 Documents the declining quality and quantity of springs around the world and efforts to preserve, protect, and restore them. Anthropogenic causes including climate change have been degrading springs around the world. Changes in spring water quality and flow impact human health, cultural values, ecology, and livelihoods. Threats to Springs in a Changing World: Science and Policies for Protection presents a range of international studies illustrating the causes of spring degradation and strategies being used to safeguard springs both now and for the future. Volume highlights include: Examples of threatened springs in diverse hydrogeologic settings; Innovative methods and tools for understanding the hydrogeology of spring systems; Current policy and governance approaches for alleviating damage to springs; Different approaches to management of springs; A call for practitioners, policy makers, scientists, and the public to work together. The American Geophysical Union promotes discovery in Earth and space science for the benefit of humanity. Its publications disseminate scientific knowledge and provide resources for researchers, students, and professionals. The audience for this book is researchers, educators, and natural resource managers working to conserve dug pits, trenches, and shallow bores. In doing so, it extends the reach of the book, but readers should also be prepared to encounter discussions of features and environments that differ from their own.
