Swahili, Basic Course Defense Language Institute (U.S.). West Coast Branch, 1963 *Resources in Education* ,1999-04

Holt Elements of Language Nyp, 2000-10 **Georgian: A Learner's Grammar** George Hewitt, 2013-08-21 This is the first learner's grammar of this fascinating language to appear for many years. The Grammar presents the language in the form of dialogues and reading passages. Full attention is given to the script reproduction and recognition, pronunciation, lexis, and individual points of grammar. There is a range of exercise work. The reference section provides an exercise answer key, Georgian-English glossary, and an index of grammatical terms. *Advanced Intelligent Computing Technology and Applications* De-Shuang Huang, Chuanlei Zhang, Qinhua Zhang, Yijie Pan, 2025-07-25 The 12 volume set CCIS 2564-2575 together with the 28 volume set LNCS LNAI LNBI 15842-15869 constitutes the refereed proceedings of the 21st International Conference on Intelligent Computing ICIC 2025 held in Ningbo, China, during July 26-29, 2025. The 523 papers presented in these proceedings books were carefully reviewed and selected from 4032 submissions. This year, the conference concentrated mainly on the theories and methodologies as well as the emerging applications of intelligent computing. Its aim was to unify the picture of contemporary intelligent computing techniques as an integral concept that highlights the trends in advanced computational intelligence and bridges theoretical research with applications. Therefore, the theme for this conference was **Advanced Intelligent Computing Technology and Applications**. **Do You Make These Mistakes in English?** Edwin L. Battistella, 2008-12-01 In the early 1900s, the language of America was becoming colloquial English, the language of the businessman, manager, and professional. Since college and high school education were far from universal, many people turned to correspondence education; that era's distance learning to learn the art of speaking and writing. By the 1920s and 1930s, thousands of Americans were sending coupons from newspapers and magazines to order Sherwin Cody's 100% Self-Correcting Course in the English Language, a patented mail-order course in English that was taken by over 150,000 people. Cody's ubiquitous signature advertisement, which ran for over forty years, promised a scientifically tested invention that improved speaking and writing in just 15 minutes a day. Cody's ad explained that people are judged by their English, and he offered self-improvement and self-confidence through the mail. In this book, linguist Edwin Battistella tells the story of Sherwin Cody and his famous English course, situating both the man and the course in early twentieth-century cultural history. The author shows how Cody became a businessman, a writer, grammatical entrepreneur, and mass marketer whose ads proclaimed "Good Money in Good English" and asked "Is Good English Worth 25 Cents to You?" His course, perhaps the most widely advertised English education program in history, provides a unique window onto popular views of language and culture and their connection to American notions of success and failure. But Battistella shows that Sherwin Cody was also part of a larger shift in attitudes. Using Cody's course as a reference point, he also looks at the self-improvement ethic reflected in such courses and products as the Harvard Classics, *The Book of Etiquette*, *The Book of the Month Club*, the U.S. School of Music, and

the Charles Atlas and Dale Carnegie courses to illustrate how culture became popular and how self reliance evolved into self improvement
