Bolker,Maura B. Mast,2021-01-21

Ten years from now what do you want or expect your students to remember from your course We realized that in ten years what matters will be how students approach a problem using the tools they carry with them common sense and common knowledge not the particular mathematics we chose for the curriculum Using our text students work regularly with real data in moderately complex everyday contexts using mathematics as a tool and common sense as a guide The focus is on problems suggested by the news of the day and topics that matter to students like inflation credit card debt and loans We use search engines calculators and spreadsheet programs as tools to reduce drudgery explore patterns and get information Technology is an integral part of today s world this text helps students use it thoughtfully and wisely This second edition contains revised chapters and additional sections updated examples and exercises and complete rewrites of critical material based on feedback from students and teachers who have used this text Our focus remains the same to help students to think carefully and critically about numerical information in everyday contexts **Stabilizing the Financial Condition of the American Automobile Industry** United States.
