Nagel,Willi Jäger,2007-07-26 The last two years have been great for high performance computing in Baden W urttemberg and beyond In July 2005 the new building for HLRS as well as Stuttgart s new NEC supercomputer which is still leading edge in G many have been inaugurated In these days the SSC Karlsruhe is nalizing the installation of a very large high performance system complex from HP built from hundreds of Intel Itanium processors and more than three th sand AMD Opteron cores Additionally the fast network connection with a bandwidth of 40Gbit s and thus one of the rst installations of this kind in Germany brings the machine rooms of HLRS and SSC Karlsruhe very close together With the investment of more than 60 Million Euro we as the users of such a valuable infrastructure are not only thankful to science managers and

politicians but also to the people running these components as part of their daily business on a 24/7 level
Since about 18 months there are a lot of activities on all scientific advisory and political levels to decide if Germany will install an even larger European supercomputer where the hardware costs alone will be around 200 Million Euro for a five year period
There are many good reasons to invest in such a program because beyond the infrastructure such a scientific research tool will attract the best brains to tackle the problems related to the software and methodology challenges Reflections on Kindness, Connections and Lifelong Learning Michael Babb, 2024-06-06 In Reflections on Kindness Connections and Lifelong Learning Empowering Emerging Educators retired Phys Ed and Biology teacher Vice principal Principal and Coach Michael Babb draws upon a wealth of experience and wisdom gleaned over almost four decades of working with students At the heart of his holistic approach to education is his belief that kindness compassion and really listening to kids are key to finding joy in teaching and helping students become their best selves Through chapters such as Acknowledge Growth and Improvement A Student Success Program Built on Relationships Be Yourself and Heart Mind Effort Success he shares his knowledge his philosophy and his love of teaching and coaching This book will be an invaluable resource for educators at all stages of their career particularly education students and those embarking on a teaching career Directory of Institutions for Higher Education India.
