do with God or question the efficacy of faith With her trademark depth of knowledge and profound insight Armstrong elucidates how the changing world has necessarily altered the importance of religion at both societal and individual levels And she makes a powerful convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age

The End of Eden Graham Phillips, 2007-05-29 Presents compelling evidence that civilizations worldwide became warlike and monotheistic after Earth passed through the tail of a comet in 1500 B C Explores the violent effect of debris from comet 12P Pons Brooks on peaceful cultures such as the Olmec of Mexico and the Megalithic people who built Stonehenge Shows how this comet's appearance was taken as a significant religious event that still has repercussions today In the year 2024 the comet 12P Pons Brooks is due to pass near Earth again for the first time in 3 500 years In 1500 B C Earth passed through this comet's tail and in the decade following cultures the world over began to exhibit significant aggressive tendencies Civilizations in India the Middle East China Japan Europe and Central America suddenly abandoned their peaceful ways and devoted themselves with uncharacteristic fervor to making war on their neighbors and fighting among themselves But this was not the only effect that is linked to this celestial event Sudden outbreaks of monotheism the worship of a single god and a new idea at the time occurred simultaneously in locales spread widely throughout the world Most of these monotheistic religions represented their god symbolically as a circle with a series of lines extending below resembling a simple drawing of a comet In The End of Eden Graham Phillips chronicles the sudden shifts in social demeanor and religious philosophy that swept the world in the wake of 12P Pons Brooks He argues that there is no other explanation for these changes other than the presence of this massive comet in the skies above Earth He contends that debris in the comet's tail contaminated the atmosphere with a chemical known to cause aggressive behavior and that

after little more than a decade worldwide hostility abruptly abated He also explores how the appearance of a celestial body that outshone the moon would have been interpreted as a significant religious event the premier appearance of a powerful new god to supplant the deities previously worshipped around the world **Earthopolis** Carl H. System Secrets Hidden in Sumerian Myths* ISHMAEL NINGISHZIDA,2025-08-16 In the shadowed archives of the Ashmolean  
Museum in Oxford where the air is filtered to protect relics older than history itself a sun baked tablet fragment rests behind  
glass its catalog number AO 4317 barely noted by visitors Its surface is scored with the delicate wedges of an ancient scribe s  
hand and though time has pitted the clay the marks speak with a voice that has traveled five thousand years It was here that  
Ryan Moorhen in what he later described as the quietest hour before closing pressed his face close to the display and  
deciphered a line that would change his understanding of humanity s origins From the firmament they descended the Lords  
of Bright Metal came to the lowland sea seeking the treasures hidden in the bones of the earth Moorhen would later write  
that the term rendered as bright metal KU GI did not simply mean gold but a Sumerian compound denoting all metals of  
celestial value gold platinum osmium iridium monazite ores To the Anunnaki he declared in his 2019 lecture at the Penn  
Museum Earth was not an Eden it was a mine Half a continent away deep within the climate controlled vaults of the Louvre  
Museum in Paris Ishmael Ningishzida ran his gloved fingers over the cool surface of AO 11876 a basalt fragment catalogued  
as a royal hymn to Anu Yet in the shifting glow of the archival lamps Ningishzida traced a different story not a hymn but a  
logistical directive preserved as worship Anu spoke to Enlil The ship shall be readied its wings folded for the long path You  
shall land in the marsh of Eridu and with Enki set the measure of the deep shafts that the stones of the earth be brought to  
the sky In Ningishzida s translation the Abzu was not a mythical abyss but a mineral rich zone in the African interior perhaps

the Bushveld Igneous Complex the richest platinum source on the planet At the British Museum Moorhen discovered another piece of the puzzle in tablet BM 92687 excavated at Sippar Long classified as part of an astronomical omen series the main inscription spoke of star risings but in the tablet s margin so faint that it had escaped decades of scholarship was a side note from the original scribe When the red star comes again to the crossing the lords of the sky shall return to claim the dust of kings For Moorhen the red star was Nibiru the dust of kings was refined ore stockpiled for celestial transport At the Penn Museum Ningishzida stood before E 3215 a tablet from Nippur depicting Ninurta triumphant atop what was long thought to be a stylized mountain It is no mountain Ningishzida told the 2021 Symposium on Ancient Technologies It is a stepped extraction pit with sluice channels tools and a conveyance system The god is not a warrior here he is an engineer overseeing an ore refinery Between them Moorhen and Ningishzida pieced together what orthodox Assyriology had resisted for over a century that the cuneiform record is not allegory but a preserved industrial logbook of a planetary mission surveying worlds building waystations on Mars and its moons and digging into Earth s crust to remove the metals their home world demanded As Ningishzida would tell a closed gathering of independent researchers The gods came for the same reason we send missions to asteroids today to mine Only they had the technology to carry their cargo in tons not grams
