Information Control Problems in Manufacturing Technology 1989 E.A. Puente, L. Nemes, 2014-06-28 The Symposium presented and discussed the latest research on new theories and advanced applications of automatic systems which are developed for manufacturing technology or are applicable to advanced manufacturing systems. The topics included computer integrated manufacturing simulation and the increasingly important areas of artificial intelligence and expert systems and applied them to the broad spectrum of problems that the modern manufacturing engineer is likely to encounter in the design and application of increasingly complex automatic systems.
