

Elementary Student Council Speech Guidelines

Congratulations on making the decision to run for a position on the Elementary Student Council.

If you are running for one of the following positions; President, Vice President, Secretary, Treasurer or Graphic Designer you will be required to give a speech to students from grades 3-5 at the assembly on Friday, August 26th.

If you are running for a class representative position, you will be required to give a speech to your classmates, at a time selected by your homeroom teacher.

Due to the quantity of people campaigning for these positions, the speeches must be **no longer** than two minutes.

Here are some guidelines to help you create your speech:

- Briefly welcome your student voters
- Give a short introduction... name and class
- Provide the main goal you are standing for
- Introduce position you are running for
- Create a short (one line) message explaining why you have selected your position
- Tell your audience a need of the school
- Give them a brief solution
- Explain why you are the best for the position
- Create a slogan to help people remember you

Elementary Student Speech Examples:

Well Spoken Erik Palmer, 2023-10-10 All teachers at all grade levels in all subjects have speaking assignments for students but many teachers believe they don't know how to teach speaking and many even fear public speaking themselves. In his new book *Well Spoken*, veteran teacher and education consultant Erik Palmer shares the art of teaching speaking in any classroom. Teachers will find thoughtful and engaging strategies for integrating speaking skills throughout the curriculum. Palmer stresses the essential elements of all effective oral communication including Building a Speech Audience, Content Organization, Visual Aids and Appearance, Performing a Speech, Poise, Voice, Life, Eye Contact, Gestures, and Speed. Evaluating a Speech, Creating Effective Rubrics, Guiding Students to Excellence. *Well Spoken* contains a framework for understanding the skills involved in all effective oral communication, offers practical steps and lesson ideas that any teacher needs to successfully teach speaking in a variety of situations, from classroom discussions to formal presentations, and includes a set of tools for students, from how to grab the audience's attention to how to use emphatic hand gestures and adjust speed for effect. Discover why year after year students returned to Palmer's classroom to thank him for teaching them how to be well spoken. You may find after reading this book that you have become a better speaker too. *Inside Japanese Classrooms*

Nancy Sato, 2003-12-16 This detailed ethnographic study of fifth and sixth grade classrooms offers new insights into Japanese culture as many aspects of daily social life are embedded in the educational system. Additionally, this book provides new perspectives on educational reform in the U.S. since many current issues and programs focus on notions of community collaboration and systemic reform, all of which are central to understanding Japanese teaching/learning processes in schools.

Resources in Education, 2001-10 *Corpus Linguistics* Douglas Biber, Susan Conrad, Randi Reppen, 1998-04-23 This book is about investigating the way people use language in speech and writing. It introduces the corpus-based approach to linguistics based on analysis of large databases of real language examples stored on computer. Each chapter focuses on a different area of linguistics including lexicography, grammar, discourse, register, variation, language acquisition, and historical linguistics. Example analyses are presented in each chapter to provide concrete descriptions of the research methods and advantages of corpus-based techniques. Ten methodology boxes provide clear and concise explanations of the issues in doing corpus-based research and reading corpus-based studies, and there is a useful appendix of resources for corpus-based investigation. This lucid and comprehensive introduction to the subject will be welcomed by a broad range of readers from undergraduate students to professional researchers. Variation in English

Douglas Biber, Susan Conrad, 2014-06-11 *Studies in Language and Linguistics* General Editors: Geoffrey Leech, Department of Modern English Language, Lancaster University and Jenny Thomas, School of English and Linguistics, University of Wales Bangor. Broad-ranging and authoritative *Studies in Language and Linguistics* is an occasional series incorporating major new work in all areas of linguistics. *Variation in English: Multi-Dimensional Studies* provides both a comprehensive view into a relatively new technique for studying language and a

diverse exciting collection of studies of variation in English The first part of the book provides an explanation of multi dimensional MD analysis a research technique for studying language variation MD is a corpus based approach developed by Doug Biber that facilitates large scale studies of language variation and the investigation of research questions that were previously intractable The second part of the book contains studies that apply Biber s original MD analysis of English to new domains These studies cover the historical evolution of English specialized domains such as medical writing and oral proficiency testing and dialect variation including gender and British American The third part of the book contains studies that conduct new MD analyses covering adult child language differences 18th century speech and writing and discourse complexity Readers of this book will become familiar with the analytical techniques of multi dimensional analysis with its applicability to a wide variety of language issues and with the findings of important studies previously published in diverse journals as well as new studies appearing for the first time
