Languages With NLP Solutions Pakray, Partha, Dadure, Pankaj, Bandyopadhyay, Sivaji, 2024-02-27 In our increasingly interconnected world, low resource languages face the threat of oblivion. These linguistic gems, often spoken by marginalized communities, are at risk of fading away due to limited data and resources. The neglect of these languages not only erodes cultural diversity but also hinders effective communication, education and social inclusion. Academics, practitioners and policymakers grapple with the urgent need for a comprehensive solution to preserve and empower these vulnerable languages. *Empowering Low Resource Languages With NLP Solutions* is a pioneering book that stands as the definitive answer to the pressing problem at hand. It tackles head-on the challenges that low resource languages face in the realm of Natural Language Processing (NLP). Berzon, 2021-05-25 *Classifying Christians* investigates late antique Christian heresiologies as ethnographies that catalogued and detailed the origins, rituals, doctrines and customs of the heretics in explicitly polemical and theological terms. Oscillating between ancient ethnographic evidence and contemporary ethnographic writing, Todd S. Berzon argues that late antique heresiology shares an underlying logic with classical ethnography in the ancient Mediterranean world. By providing an account of heresiological writing from the second to fifth century, *Classifying Christians* embeds heresiology within the historical development of imperial forms of knowledge that have shaped western culture from antiquity to the present.

Moving Critical Literacies Forward Jessica Pandya, Julianna Ávila, 2013-11-26 Taking the pulse of current efforts to do and, in some cases, undo critical literacy, this volume explores and critiques its implementation in learning contexts around the globe. An impressive set of international authors offer examples of productive critical literacy practices in and out of schools, address the tensions and gaps between these practices and educational policies and attempt to forecast the future for critical literacy as a movement in the changing global educational policy landscape. This collection is unique in presenting the recent work of luminaries such as Allan Luke and Hilary Janks alongside relative newcomers who use innovative approaches and

arguments to reinvigorate and redefine critical practice It is time for this cutting edge inquiry into the state of critical literacy not only because is it a complex and ever evolving field but perhaps more important because it offers a reaction to and powerful reworking of standardization and high stakes accountability measures in educational contexts around the globe
