

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Higher Education in the Global Age Daniel Araya, Peter Marber, 2013-11-20. Discussions on globalization now routinely focus on the economic impact of developing countries in Asia, Africa, the Middle East, the former Soviet Union, and Latin America. Only twenty-five years ago, many developing countries were largely closed societies. Today, the growing power of emerging markets is reordering the geopolitical landscape. On a purchasing power parity basis, emerging economies now constitute half of the world's economic activity. Financial markets too are seeing growing integration. Asia now accounts for 1/3 of world stock markets, more than double that of just 15 years ago. Given current trajectories, most economists predict that China and India alone will account for half of global output by 2050, almost a complete return to their positions prior to the Industrial Revolution. How is higher education shaping and being shaped by these massive tectonic shifts? As education rises as a geopolitical priority, it has converged with discussions on economic policy and a global labor market. As part of the Routledge Studies in Emerging Societies series, this edited collection focuses on the globalization of higher education, particularly the increasing symbiosis between advanced and developing countries. Bringing together senior scholars, journalists, and practitioners from around the
