Numerous initiatives that embrace TEIL can be observed around the world but ELT and teacher education in Germany and other European countries appear to be largely unaffected by this development with standard British and American English and the monolingual native speaker including the corresponding cultural norms still being very much at the center of attention. The present volume addresses this gap and is the first of its kind to showcase recent initiatives that aim at introducing TEIL into ELT and teacher education in Germany but which have applicability and impact for other countries with comparable education systems and traditional ELT practices in the Expanding Circle. The chapters in this book provide a balanced mix of conceptual, empirical and practical studies and offer the perspectives of the many stakeholders involved in various settings of English language education whose voices have not often been heard: i.e. students, university lecturers, trainee teachers, teacher educators and in-service teachers. It therefore adds significantly to the limited amount of previous work on TEIL in Germany and bridges the gap between theory and practice that will not only be relevant for researchers, educators and practitioners in English language education in Germany but other educational settings that are still unaffected by the shift towards TEIL.

English in Primary Education Summer, Theresa, Böttger, Heiner, 2023-03-27. This volume focuses on the teaching of English as a foreign language to young learners at primary school. The volume features an introduction that covers essentials of teaching English to young learners from a theoretical, empirical and neuroscientific perspective while also discussing the notion of a principled mindset, competence development, transcultural learning, the use of materials and literature and lesson planning. The subsequent contributions cover reading and writing, bilingual programs, the transition from primary to secondary school, storybooks, the importance of self-selected fiction, anti-bias education, ways of encouraging young learners to speak and professional advice for primary English language educators based on a qualitative analysis of interviews. Based on an international TEFL lecture series, researchers, teacher educators and practising teachers from Germany, Switzerland and the United States share their insights into these central issues and offer theoretical concepts for the professional development of pre-service primary school English teachers. Practical ideas and examples included in this volume aim to make theoretical constructs accessible and relatable for future teachers of English. The afterword features a look ahead by critically examining future challenges of primary school educators and highlighting 1. the great importance of an early start with English as a foreign language and 2. the need for developing national educational standards. This volume provides a research-based and practice-oriented foundation for pre-service English teachers wishing to expand their knowledge and gain an insight into recent developments in foreign language learning theories and concepts. Although mostly aimed at primary school educators, particularly the introductory chapter will be equally relevant for university students or teachers focusing on vocational and secondary school teaching so that they develop an understanding of specific features of primary English language education and as concerns secondary school teachers can contribute to a smooth transition in the fifth grade.

Cognition and Second Language Acquisition Thorsten Piske, Anja Steinlen, 2022-07-25. This volume examines

interactions between second foreign language acquisition and the development of cognitive abilities in learners who acquire an additional language in preschools primary or secondary schools The chapters explore possible links between cognitive and linguistic skills displayed by multilingual learners This book should appeal to different kinds of readers such as linguists psychologists and language teachers
