Bogousslavsky,2017-11-17 After a period in which neurology and psychiatry have become more and more defined neurologists interest in psychiatric topics and vice versa has increased This book provides readers with an overview of the most representative neuropsychiatric syndromes such as Ganser and Capgras syndromes It fills an existing gap in current literature and reintroduces a clinical approach Additionally there is a historical perspective throughout time with a focus on the most relevant clinical syndromes offering distinct value to readers With this approach the book serves as a useful and stimulating guide on the diagnosis and management of neurologic psychiatric syndromes It is for neurologists neurosurgeons psychiatrists and all others interested in neuropsychiatric topics because these syndromes also called uncommon may in fact be more frequent than the literature suggests Reducing Inter-generational Ethnic Poverty Greg Clydesdale,2020-11-29 This book looks at human capital development and provides an explanation for why cognitive development varies among ethnic groups The book uses an interdisciplinary approach to examine inter generational ethnic poverty It puts forth an argument that the ethnic poverty gap can be reduced and to do so we need a broader view of human capital which considers the match between the nature of the economy and the specific capabilities needed The book focuses on the interrelationship between developmental psychology and socio economic status and argues that the most important relationship in a knowledge economy is actually the one between a parent and a child The book begins by looking at cultures and assimilation and investigates the link between education culture and socio economic status It also attempts to answer the question of what the link between culture parents and children s ability is and why ethnic groups vary in their nurturing It delves into how parenting and cognitive development are interrelated This thought provoking book concludes with an emphasis on nurture and how it may alleviate ethnic poverty and shape social policies The book provides a strong thesis to counter explanations based on racial and genetic superiority The Christian Educator's Handbook on Adult Education Kenneth O.
