Williams,Mark Gaskell,2002 The remarkable system of Vedic mathematics was created after careful study of ancient Sanskrit texts early last century The Vedic system with its direct easy and flexible approach forms a complete system of mental mathematics though the methods can also be written down and brings out the naturally coherent and unified structure of mathematics Many of the features and techniques of this unique system are truly amazing in their efficiency and originality Being a mental system Vedic Mathematics encourages creativity and innovation Mental mathematics increases mental agility improves memory the ability to hold ideas in the mind and promotes confidence as well as being of great practical use This
