A History of Literacy Education Robert J. Tierney, P. David Pearson, 2021 In this volume two notable scholars trace the monumental shifts in theory research and practice related to reading education and literacy with particular attention to what they consider the central goal of literacy making meaning Each section describes a specific epoch including a brief snapshot of how the reader of that period is envisioned and characterized by researchers and teachers as well as a deep discussion of the ideas and contextual events of that era These developmental waves are organized
