Caught in the Act Cyril Julie, Lorna Holtman, Charles R. Smith, 2019-12-11 The research reported in Caught in the Act draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers Monthly

After the Education Wars Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers **After the Education Wars** helps us to see a better way forward Cathy N Davidson The New York Times Book Review **After the Education Wars** is an important book that points the way to genuine reform Diane Ravitch author of *Reign of Error* and *The Death and Life of the Great American School System* A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world **After the Education Wars** explains how the market based measures and carrot and stick incentives informing today s reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state s once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform **After the Education Wars** makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools **The**

Gambler and the Scholars John F. Dooley, 2023-04-05 In May 1917 William and Elizebeth Friedman were asked by the U S Army to begin training officers in cryptanalysis and to decrypt intercepted German diplomatic and military communications In June 1917 Herbert Yardley convinced the new head of the Army s Military Intelligence Division to create a code and cipher section for the Army with himself as its head These two seminal events were the beginning of modern American cryptology

the growth of which culminated 35 years later with the creation of the National Security Agency Each running their own cryptologic agencies in the 1920s the Friedman Yardley relationship was shattered after Yardley published a tell all book about his time in military intelligence Yet in the end the work they all started in 1917 led directly to the modern American intelligence community As they got older they became increasingly irrelevant in the burgeoning American cryptologic fraternity Topics and features Examines the lives of three remarkable and pioneering cryptologists Offers fascinating insights into spies codes and ciphers rumrunners poker and military history Sheds new light on interesting parts of the cryptologists careers especially Elizebeth Friedman whose work during World War II has just begun to be explored Recounts several good stories i e What if the Friedmans had gone to work for Herbert Yardley in his new Cipher Bureau in 1919 What if Yardley had moved back to Washington to work for William Friedman a decade later This enjoyable book has wide appeal for general readers interested in the evolution of American cryptology American historians particularly of World War I the inter war period and World War II signals intelligence and historians of and general readers interested in American military intelligence It also can be used as an auxiliary text or recommended reading in introductory or survey courses in history or on the related topics

How We Teach Science John L. Rudolph,2019-06-01 Despite an enduring belief that science should be taught there has been no enduring consensus about how or why This is especially true when it comes to teaching scientific process John Rudolph shows that

how we think about and teach science will either sustain or thwart future innovation and determine how science is perceived by the public **Chinese Research Perspectives on Educational Development, Volume 4** Dongping Yang, 2019-09-24

This collection of articles selected from Blue Book of Chinese Education 2015 published in Chinese reviews the condition of China's education development in 2014. The wide range of topics covered in this volume fall under two major themes: reform and equity. Chapters on reform focus on the college entrance exam Gaokao, secondary vocational education, senior high school education provincially and locally funded colleges, private universities, and junior high school admissions policies. Chapters in the second half of the book provide readers with an in-depth account of efforts made to improve equity in special and early childhood education, study abroad preparation classes, and rural education. The appendix includes a report of budgetary expenditure on education and a chronology of major events.
