Family historians depend upon thousands of people unknown to them They exchange research with others copy information from books and databases and write libraries societies and government offices At times they even hire professionals to do legwork in distant areas and trust strangers to solve important problems But how can a researcher be assured that he or she is producing or receiving reliable results This new edition of the official manual from the Board of Certification for Genealogists provides a standard by which all genealogists can pattern their work Anyone who wants to become a certified genealogist will need to read this book Dick Eastman      *Industrial Education Magazine* ,1928      **The Lincoln Library of Essential Information an Up to Date Manual for Daily Reference, for Self Instruction, and for General Culture Named in Appreciative Remembrance of Abraham Lincoln, the Foremost American Exemplar of Self Education** ,1924      **The Delineator** R.
