

## INSTRUMENTS AND CONTROLS

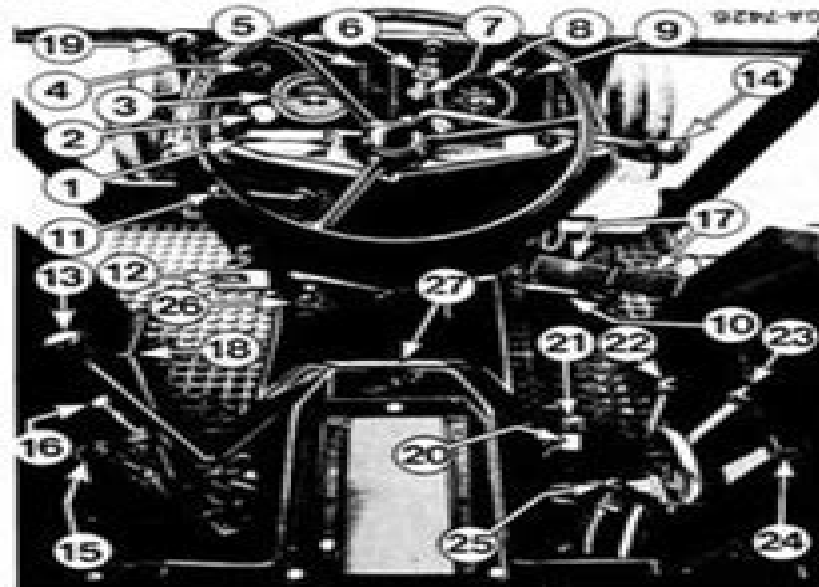

Regardless of previous experience as a tractor operator, you must be thoroughly familiar with the location and use of all instruments and controls before operating this tractor. Check all instruments, immediately after starting, again upon reaching operating temperatures and at frequent intervals during operation to assure proper care through prompt detection of irregularities. If any of

the instruments do not register properly, stop the engine, locate and correct the cause immediately.

Be careful! Any attempt to operate the machine without sufficient knowledge may be a hazardous venture.
