The Covid-19 Response in New York City Syra S. Madad,Laura G. Iavicoli,Eric K. Wei,2024-04-21 The COVID 19 Response in New York City Crisis Management in the Largest Public Health System provides an historical accounting of the

response to the COVID 19 pandemic through the eyes of the largest public health system in the United States The book offers a roadmap to guide healthcare systems and their providers in the event of future pandemics Readers will learn about surge staffing and level loading as well as tips from the ED and ICUs on how to respond to an unprecedented influx of inpatients Written by healthcare providers who were at the epicenter of the pandemic in New York City this book provides a sound accounting of the response to the pandemic in one of the world s largest cities Provides historical context of the COVID 19 response by NYC Health Hospitals Covers how to respond to a mass influx of patients and sustained crisis over a year Presents information on standing up genomic sequencing *Eternal Reign* Melody Johnson, 2017-04-25 THE LEVELING Last week Cassidy DiRocco had some influence over the vampires that stalk the streets of New York City She was never completely safe but with her newfound abilities as a night blood and her honed instincts as a crime reporter at least she had the necessary skills to survive Now thanks to the injuries she sustained while saving her brother from a fate worse than death she s lost her night blood status just as another crime spree hits Brooklyn Dozens of people are being slaughtered and each victim bears the Damned s signature mark a missing heart Cassidy will need the help of all her allies to survive the coming war including the mysterious and charismatic Dominic Lysander Master Vampire of New York City But as his rival s army threatens his coven and his own powers weaken with the approaching Leveling even Dominic s defenses might not be enough protection With nothing left to lose Cassidy must find the power inside herself to save Dominic his coven their city and survive *Fraught with Pain* Pereira, Isabel, Ramírez, Lucía, 2019-09-04 This books seeks to facilitate linkages between discussions on the right to health and discussions on drug policy reform The populations we talk about here are the ones most in need of a change whereby drug culture measures cease to stand in the way of a life free from pain The suffering and pain experienced by people with terminal illnesses and people with heroin use disorder can be alleviated through opioids At the same time the enforcement of international drug control treaties means that these medicines are subjected to strict controls that create excessive red tape and contribute to generalized fear among patients and health professionals concerning these medicines use Although many opioids are included in the World Health Organization s list of essential medicines the fact that they are controlled substances means that in practice the right to health of these two populations often is violated *Fraught with Pain* offers a diagnosis of five Colombian cities with regard to the barriers that both populations patients at the end of life and individuals with heroin use disorder face when trying to access opioids The hurdles they encounter can be grouped into four categories 1 Structural failings of the Colombian health system 2 A lack of institutional capacity to maintain sufficient opioid stocks in small and medium cities 3 A lack of specialized training among health professionals in small and medium cities on the issues of palliative care and psychoactive substance use disorders 4 Stigma surrounding opioids and the people who use them Analyzing the enjoyment of the right to health among these two groups of people would seem ill advised for what could they and the health care they receive possibly have in common

However this book argues that someone facing the end of life and someone with a heroin use disorder actually face similar challenges they are both in need of the same controlled substances they both require interdisciplinary treatment that extends beyond opioids they both seek health services during moments of extreme vulnerability and they are both often treated negligently by health systems that are ill equipped to handle death and drug dependence *Fraught with Pain* seeks to facilitate linkages between discussions on the right to health and discussions on drug policy reform The populations we talk about here are the ones most in need of a change whereby drug culture measures cease to stand in the way of a life free from pain Description tomada de <https://www.dejusticia.org/en/publication-fraught-with-pain-access-to-palliative-care-and-treatment-for-heroin-use-disorder-in-colombia>
