

Turnitin: How do I fix my paper?

- Minimize the use of quoted material
- If quoting, use the exact words—even if errors are in the original
- Do not copy/paste from sources—even a student's own work previously turned in for credit
- Use the thesaurus in the Word program
- Read, verbalize, then write to begin the paraphrasing process—You can't paraphrase well what you don't understand
- Place the citation after the sentence quoted or paraphrased

Clam Down Anelise Chen, 2025-06-03 In this wondrously unusual memoir a woman retreats into her shell in the aftermath of her divorce and must choose between the pleasures and the perils of a closed up life a transformation fable from an acclaimed 5 Under 35 National Book Foundation honoree A marvel and a delight This is a book that will stay with me forever Leslie Jamison author of *Splinters* We've all heard the story about waking up as a cockroach but what if a crisis turned you into a clam After the dissolution of her marriage a writer is transformed into a clam via typo after her mother keeps texting her to clam down The funny if unhelpful command forces her to ask what it means to clam down to retreat hide close up and stay silent Idiomatically we are said to clam up when we can't speak and to come out of our shell when we reemerge transformed In order to understand her path the clam digs into examples of others who have embraced lives of reclusiveness and extremity Finally she confronts her own clam genealogy to interview her dad who disappeared for a decade to write a mysterious accounting software called Shell Computing By excavating his past to better understand his decisions she learns not only how to forgive him but also how to move on from her own wounds of abandonment and insecurity Using a genre defying structure and written in novelistic prose that draws from art literature and natural history Anelise Chen unfolds a complex story of interspecies connectedness in which humans learn lessons of adaptation and survival from their mollusk kin While it makes sense in certain situations to retreat behind fortified walls the choice to do so also exacts a price What is the price of building up walls How can one take them back down when they are no longer necessary

Across Property Lines Candace Spigelman, 2000-02-16 Candace Spigelman investigates the dynamics of ownership in small group writing workshops basing her findings on case studies involving two groups a five member creative writing group meeting monthly at a local Philadelphia coffee bar and a four member college level writing group meeting in their composition classroom She explores the relationship between particular notions of intellectual property within each group as well as the effectiveness of writing groups that embrace these notions Addressing the negotiations between the public and private domains of writing within these groups she discovers that for both the committed writers and the novices values associated with textual ownership play a crucial role in writing group performance Spigelman discusses textual ownership intellectual property and writing group processes and then reviews theories relating to authorship and knowledge making After introducing the participants in each

group discussing their texts and describing their workshop sessions she examines the writers avowed and implied beliefs about exchanging ideas and protecting individual property rights Spigelman stresses the necessary tension between individual and social aspects of writing practices She argues for the need to foster more collaborative activity among student writers by replicating the processes of writers working in nonacademic settings but also contends that all writers must be allowed to imagine their individual agency and authority as they compose

12 Speed Ryan S. Lewis, 2022-02-09 As a paragon of hindsight this dystopian novel focuses its attention on the US and current affairs It is a warning statement crafted by the sick sensibility of what we want or need assuming that conversation is as valuable as understanding the Dejavudoo of our brains on drugs Some report lucid moral atrophy while others argue whether sex trafficking is a sport or a form of torture The officials in charge think talking is swinging as a lust competition antic In many cases the underdog strategy of condescending reflexes become arguable as the excuses to survive may or may not be an effort to avoid blue balls The basics of turning a live theatrical event into a smash mouth hit is only what dreams could fathom Echoing the experimental literary style of James Joyce and William Burroughs the author explodes the boundaries of language and grammar to create a novel of the future about the present
