| Kerala         | 8.5      | 10         |

(i) Compare the nutritional level of people in Kerala and Madhya Pradesh.

(ii) Can you guess why around 40 percent of people in the country are undernourished even though it is argued country? Describe in your own words.

### Answer 13:

(i) The nutritional level of people of Kerala is quite higher than the people – both males and females of Madhya Pradesh. Their ratio of the under-nourished is less than that of Madhya Pradesh i.e. more per cent of males and females are undernourished in Madhya Pradesh.

(ii) There is enough food in the country, even then most of the people in the country are undernourished because:

- A large number of people are so poor that they cannot afford nutritious food.
- In most of the states, the Public Distribution System (PDS) does not function properly and the poor people cannot get food items at cheaper rates.
- There is a lack of educational and health facilities in many parts of the country.
