A Study of Mesoscale Features of Summertime Minimum Wind Fields in the Lower Stratosphere
George F. Nolan,1967 Mesoscale observations of summertime minimum wind fields in the lower stratosphere disclose a complex mesostructure in the winds located between the stratospheric easterlies and tropospheric westerlies Anticyclonic rotation of wind directions appears to predominate but speeds although low are highly variable There are a number of layers averaging 1000 ft thick that have a speed of less than 10 kt These layers seem to have no traceable continuity in time or space There is evidence of significant inertial influence on winds of less than 10 kt Two sets of data were obtained from radiosondes with extended power supplies carried on large plastic balloons that made slow ascents and descents through this region of the atmosphere The success of these ventures supports the concept of using free floating and tethered balloons as hovering or station keeping vehicles Author

A Right to Sing the Blues Jeffrey Melnick,2001-03-16 All too often an incident or accident such as the eruption in Crown Heights with its legacy of bitterness and recrimination thrusts Black Jewish relations into the news A volley of discussion follows but little in the way of progress or enlightenment results and this is how things will remain until we radically revise the way we think about the complex interactions between African Americans and Jews A Right to Sing the Blues offers just such a revision Black Jewish relations Jeffrey Melnick argues has mostly been a way for American Jews to talk about their ambivalent racial status a narrative collectively constructed at critical moments when particular conflicts demand an explanation Remarkably flexible this narrative can organize diffuse materials into a coherent story that has a powerful hold on our imagination Melnick elaborates this idea through an in depth look at Jewish songwriters composers and performers who made Black music in the first few decades of this century He shows how Jews such as George Gershwin Irving Berlin Al Jolson and others were able to portray their natural affinity for producing Black music as a product of their Jewishness while simultaneously depicting Jewishness as a stable white identity Melnick also contends that this cultural activity competed directly with Harlem Renaissance attempts to define Blackness Moving beyond the narrow focus of advocacy group politics this book complicates and enriches our understanding of the cultural terrain shared by African Americans and Jews
