production models from the original SS Jaguar to today's F Type sports cars, F Pace SUV, X Type sedans as well as concept cars. As with other books in the Complete Book Series, author Nigel Thorley organizes the content chronologically with entries for each year. Narratives for each discuss the cars and technology, while spec tables highlight key technical and performance specifications. Originally begun by a couple of motorcycle enthusiasts, William Lyons and William Walmsley, as a firm called the Swallow Sidecar Company, Jaguar would become one of the world's most celebrated automakers. In England's bleak postwar years, Jaguar became a shining star, first with its XK120, followed by the XK140 and XK150. Sporting sedans like the Mark 2 and Mark X set the bar for luxury four-door transport in the 50s and 60s. Then Jaguar stunned the world with the achingly beautiful E Type in 1961, a genuine 150 mph super sports car. Along the way, the company competed on road courses around the world, going head-to-head with greats like Ferrari and Aston Martin. Though Jaguar lost its way periodically in the modern era, it has bounced back stronger than ever in the twenty-first century with a strong lineup, including the new F Type sports car and F Pace SUV. The Complete Book of Jaguar is the essential guide to this important chapter in the history of sports and luxury automobiles.

Jaguar E-Type Lance Cole, 2020-06-30. The aim of this innovative series is to provide modelmakers and car enthusiasts with a new standard of primarily visual reference of both full-size cars and their scale models. Each book contains detailed technical information imparted through drawings and photographs, while the meticulously researched full-color profiles provide a complete reference for paint schemes and markings. In addition, every volume of the CarCraft series features summaries of design histories and operational careers and reviews of available kits. The third book in the new CarCraft series, Jaguar E-Type, frames the legend of what many call the world's most beautiful car design. Sir William Lyons and Malcolm Sayer carved automotive history with this car across its 1960s-1970s incarnations, from roadster to coupé, amid the fitting of Straight Six to V12 engines. With its new definition of sculptural styling, performance, handling, and innovative style, the E-Type or XKE series in the USA created a car of global impact that remains a great classic of all time. Here, experienced automotive writer and industrial designer Lance Cole pays tribute to the car in a detailed yet engaging commentary. New photography, the design story, and full coverage of the modeling options in synthetic materials and die-cast metals create a narrative of vital interest.
