Jan 13 Econ 1 Mark Scheme:

Fraud Edward J. Balleisen, 2018-12-18 A comprehensive history of fraud in America from the early nineteenth century to the subprime mortgage crisis In America fraud has always been a key feature of business and the national worship of entrepreneurial freedom complicates the task of distinguishing salesmanship from deceit In this sweeping narrative Edward Balleisen traces the history of fraud in America and the evolving efforts to combat it from the age of P T Barnum through the eras of Charles Ponzi and Bernie Madoff This unprecedented account describes the slow piecemeal construction of modern institutions to protect consumers and investors from the Gilded Age through the New Deal and the Great Society It concludes with the more recent era of deregulation which has brought with it a spate of costly frauds including corporate accounting scandals and the mortgage marketing debacle By tracing how Americans have struggled to foster a vibrant economy without encouraging a corrosive level of cheating Fraud reminds us that American capitalism rests on an uneasy foundation of social trust

Finkelstein, 2023-07-25 From a MacArthur Genius MIT economist and pre eminent Stanford economist comes a lively and provocative proposal for American health insurance reform Few of us need convincing that the American health insurance system needs reform But many of the existing proposals focus on expanding one relatively successful piece of the system or building in piecemeal additions These proposals miss the point As the Stanford health economist Liran Einav and the MIT economist and MacArthur Genius Amy Finkelstein argue our health care system was never deliberately designed but rather pieced together to deal with issues as they became politically relevant The result is a sprawling yet arbitrary and inadequate mess It has left 30 million Americans without formal insurance Many of the rest live in constant danger of losing their coverage if they lose their job give birth get older get healthier get richer or move It s time to tear it all down and rebuild sensibly and deliberately Marshaling original research striking insights from American history and comparative analysis of what works and what doesn t from systems around the world Einav and Finkelstein argue for automatic basic and free universal coverage for everyone along with the option to buy additional supplemental coverage Their wholly original argument and comprehensive blueprint for an American universal health insurance system will surprise and provoke We ve Got You Covered is an erudite yet lively and accessible prescription we cannot afford to ignore
