**Introduction to Air Transport Economics** Bijan Vasigh, Ken Fleming, 2016-05-06 Introduction to Air Transport Economics From Theory to Applications uniquely merges the institutional and technical aspects of the aviation industry with their theoretical economic underpinnings In one comprehensive textbook it applies economic theory to all aspects of the aviation industry bringing together the numerous and informative articles and institutional developments that have characterized the field of airline economics in the last two decades as well as adding a number of areas original to an aviation text Its integrative approach offers a fresh point of view that will find favor with many students of aviation The book offers a self contained theory and applications oriented text for any individual intent on entering the aviation industry as a practicing professional in the management area It will be of greatest relevance to undergraduate and graduate students interested in obtaining a more complete understanding of the economics of the aviation industry It will also appeal to many professionals who seek an accessible and practical explanation of the underlying economic forces that shape the industry The

second edition has been extensively updated throughout. It features new coverage of macroeconomics for managers, expanded analysis of modern revenue management and pricing decisions, and also reflects the many significant developments that have occurred since the original publication. Instructors will find this modernized edition easier to use in class and suitable to a wider variety of undergraduate or graduate course structures, while industry practitioners and all readers will find it more intuitively organized and more user friendly.

CFA Program Curriculum 2018 Level I CFA Institute, 2017-08-02. Clear concise instruction for all CFA Level I concepts and competencies for the 2018 exam. The same official curricula that CFA Program candidates receive with program registration is now publicly available for purchase. CFA Program Curriculum 2018 Level I Volumes 1-6 provides the complete Level I Curriculum for the 2018 exam, delivering the Candidate Body of Knowledge (CBOK) with expert instruction on all 10 topic areas of the CFA Program. Fundamental concepts are explained in depth with a heavily visual style, while cases and examples demonstrate how concepts apply in real world scenarios. Coverage includes ethical and professional standards, quantitative analysis, economics, financial reporting and analysis, corporate finance, equities, fixed income, derivatives, alternative investments, and portfolio management, all organized into individual sessions with clearly defined Learning Outcome Statements. Charts, graphs, figures, diagrams, and financial statements illustrate concepts to facilitate retention, and practice questions provide the opportunity to gauge your understanding while reinforcing important concepts. Learning Outcome Statement checklists guide readers to important concepts to derive from the readings. Embedded case studies and examples throughout demonstrate practical application of concepts. Figures, diagrams, and additional commentary make difficult concepts accessible. Practice problems support learning and retention. CFA Institute promotes the highest standards of ethics education and professional excellence among investment professionals. The CFA Program Curriculum guides you through the breadth of knowledge required to uphold these standards. The three levels of the program build on each other: Level I provides foundational knowledge and teaches the use of investment tools; Level II focuses on application of concepts and analysis, particularly in the valuation of assets; and Level III builds toward synthesis across topics with an emphasis on portfolio management.
