K,2018-12-11 instant pot manual setting instant pot ultra manual instant pot duo plus manual button my instant pot doesn't have a manual button instant pot cooking times instant pot blogs Instant Pot Step by step guide for beginner for any new Instant Pot user If you are experiencing Instant Pot Problems you will learn how to fix them When I first got my Instant Pot I knew nothing about electric pressure cookers I was familiar with pressure cooking since I'd been using a stove top pressure cooker for years But the Instant Pot is different it has so much functionality and all those buttons To be honest it was a bit intimidating I had lots of questions at the beginning and I found the answers through trial and error or by asking questions on forums and blogs I got some great information These days the tables are turned and I get similar questions from new Instant Pot users Here are some Instant Pot tips and FAQs that might help you whether you're a brand new Instant Pot owner or if you're still getting familiar with your Instant Pot The Instant Pot has so many built in safety mechanisms that you don't need to worry Even if you forget to put in liquid the Instant Pot will just shut off and give you an error code It's very natural to feel apprehensive about using your Instant Pot for the first time If you're not inclined to read the manual that came with your Instant Pot I've written a couple of easy to follow guides for new users It'll get you comfortable with using the Instant Pot for the first time It shows you the basics and will walk you through the water test which is the first thing you should do Recent Instant Pot users seem to be getting the Burn message more frequently If you're using an online recipe it may have been made in an older 6 quart Instant Pot Because of design changes your Instant Pot may not work exactly the same way Here are two steps you can take Add any tomato product and or starchy ingredients rice pasta etc at the end and DON'T stir Just push down with a large spoon or spatula to submerge in liquid Increase the quantity of liquid called for in the recipe If your ring cannot be rotated around the sealing ring rack it's not properly seated You should be able to turn it in place with a bit of effort If your sealing ring hasn't been installed correctly you may find that steam is leaking out of the sides of the lid According to the Instant Pot manual the Instant Pot requires at least 1 cup of liquid I've used as little as 1/2 cup and done fine with many recipes Some liquids like canned tomato sauce are too dense and require thinning out with broth or water When you cook foods like pasta or other messy foods the anti block shield and the float valve can get dirty and be obstructed Are you seeing an Instant Pot burn message It's a common problem that many Instant Pot users come across Find out why you're getting the Instant Pot burn error message how to avoid the problem in the future and how to recover from a burn error and salvage your meal THERE ARE SO MANY DIFFERENT TERMS USED IN INSTANT POT RECIPES NPR QR NPR 10 IP WHAT DO THEY MEAN With the Instant Pot 10 minutes pressure cooking time is not just 10 minutes it can be 20 to 30 minutes The time that you enter on the Instant Pot control panel e.g Manual or Pressure Cook for 10 minutes is not the time it takes to cook the dish The Instant Pot needs to come to pressure before the 10 minute countdown begins MY INSTANT POT RECENTLY STARTED MAKING CLICKING NOISES WHILE IT'S COOKING DO I NEED TO WORRY Instant Pot is a Third Generation Programmable Electric Pressure Cooker In fact it's currently one of the most popular electric pressure
