Indeed Nidan geri p 184 is not Tobi geri p 245 The former is less about flying The name reminds us to perform the technique better Our words affect our insights and our perceptions determine the words we are using FUNAKOSHI Sensei and other masters had profound knowledge not only of the Chinese classics i and the Japanese culture but also of the Japanese language ii The names that we use in our Karate trainings were not chosen lightly nor accidentally As for us those names have great significance What s in a name That which we call a rose by any other name would smell as sweet says Juliet in William Shakespeare s Romeo and Juliet In Karate s case we humbly prefer Confucius s iii approach In the words of the Chinese philosopher Feng Youlan 1895 1990 iv Every name possesses its own definition which designates that which makes the thing to which the name is applied be that thing and no other In other words the name is that thing s essence or concept What is pointed out by the definition of the name ruler for example is that essence which makes a ruler a ruler In the phrase Let the ruler be ruler etc the first word ruler refers to ruler as a material actuality while the second ruler is the name and concept of the ideal ruler Take the example of the name Jitte p 111 If a day comes when they debate about how many hand movements there are in the opening of the Kata the name of the Kata will be there to help Some are going to realize that there are Ten Hands meaning ten palm strikes up to the first Kiai this understanding will derive from the name of the Kata Some of the ten hand strikes are simultaneous So the right answer they will hopefully conclude is three But why Japanese one asks You can say Double Kick or Ten Hands in any language First it is a tradition Second we feel connected to something bigger than our D j v And indeed in mutual training correspondence etc we can communicate well with people that do not speak our language The Japanese parts of our Karate pidgin are a common ground But most importantly studies show that language influences the way we think vi The Chinese philosopher Dong Zhongshu 179 104 BC used etymology as a hermeneutic tool vii The present generation is ignorant about human nature giving various teachings about it Why do they not try to examine the name nature Does not the name nature x ng mean birth sh ng The capacity that one naturally has at birth is what is called the nature The nature is one s mere potential Accordingly if we want to understand what it means to be a warrior we should look at the Kanji for warrior That is what the Chinese King Zhu ng of Ch 7th century B C did The Kanji for warrior is p 45 If one looks carefully one can see that this Compound Logogram is composed of the Radical p 271 which could mean to stop just as in our yame p 270 and from the Stem dagger axe We should never look at the command Yame in the same way again Putting an end to violence is indeed the highest level of the art of war that was the King s conclusion based on the Logogram viii ix For us the language and the Sino Japanese Logograms are indispensable for understanding Karate from technique to spirit The back cover text Front cover Sh t kan symbol s ancient forefather Karate is analogous to a tree We are sitting on a very high branch Sometimes we are looking down at the stem beneath us and sometimes not Anyways the important and interesting things are in the roots which are invisible to the average instructor We do not even know where our symbol came from In all my writings including the dictionary you are holding I do my best to shed light on

those roots Here we try to get a clearer and deeper understanding of linguistic aspects I hope you will find this book informative and useful and wish you a pleasant read Adam Dobrzy ski TAGS JKA gift Shotokan gift Karate gift Shotokan basics Shotokan textbook Karate terminology Karate vocabulary Karate lexicon Japanese encyclopedia terminology vocabulary language jargon lexicon karate basic words karate advanced terms karate basic terms key words and commands shotokan key terms Occupational and Environmental Safety and Health III Pedro M.
