web instrumentation and control engineering ice is a branch of engineering that studies the measurement and control of process variables and the design and implementation of systems that incorporate them process variables include pressure temperature humidity flow ph force and speed ice combines two branches of engineering

what is instrumentation control explain in detail - Oct 29 2022

web instrumentation is defined as measurement and control of process variables within a production or manufacturing area in other words instrumentation control is one that deals with automated measurements that controls the physical quantities like pressure level temperature flow etc
