Kupchan, 2012-03-01 The world is on the cusp of a global turn Between 1500 and 1800 the West sprinted ahead of other centers of power in Asia and the Middle East Europe and the United States have dominated the world since But today the West's preeminence is slipping away as China India Brazil and other emerging powers rise Although most strategists recognize that the dominance of the West is on the wane they are confident that its founding ideas democracy capitalism and secular nationalism will continue to spread ensuring that the Western order will outlast its primacy In No One's World Charles A Kupchan boldly challenges this view arguing that the world is headed for political and ideological diversity emerging powers will neither defer to the West's lead nor converge toward the Western way The ascent of the West was the product of social and economic conditions unique to Europe and the United States As other regions now rise they are following their own paths to modernity and embracing their own conceptions of domestic and international order Kupchan contends that the Western order will not be displaced by a new great power or dominant political model The twenty first century will not belong to America China Asia or anyone else It will be no one's world For the first time in history an interdependent world will be without a center of gravity or global guardian More than simply diagnosing what lies ahead Kupchan provides a detailed strategy for striking a bargain between the West and the rising rest by fashioning a new consensus on issues of legitimacy sovereignty and governance Thoughtful provocative sweeping in scope this work is nothing less than a global guidebook for the 21st century **Qur'anic Guidance for Good Governance** Abdullah al-Ahsan, Stephen

B. Young, 2017-08-06 This book is a study of religious principles of good governance in our contemporary societies Historically religion has provided guidance for organizing societies In modern times however religious ideas have been marginalized in social science literature Contributors to this work explore what values and practices the Qur'an can contribute to governing our economic political and social life today Animation Behind the Iron Curtain Eleanor

Cowen, 2020-09-22 Animation Behind the Iron Curtain is a journey of discovery into the world of Soviet era animation from Eastern Bloc countries From Jerzy Kucia's brutally exquisite Reflections in Poland to the sci-fi adventure of Ott in Space by

Estonian puppet master Elbert Tuganov to the endearing Gopo's little man by Ion Popescu Gopo in Romania this excursion into Soviet era animation brings to light magnificent art ruminations on the human condition and celebrations of innocence and joy As art reveals the spirit of the times animation art of Eastern Europe during the Cold War funded by the Soviet states allowed artists to create works illuminating to their experiences hopes and fears The political ideology of the time ironically supported these artists while simultaneously suppressing more direct critiques of Soviet life Politics shaped the world of these artists who then fashioned their realities into amazing works of animation Their art is integral to the circumstances in which they lived which is why this book combines the unlikely combination of world politics and animated cartoons The phenomenal animated films shared in this book offer a glimpse into the culture and hearts of Soviet citizens who grew up with characters as familiar and beloved to them as Mickey Mouse and Bugs Bunny are to Americans This book lays out the basic political dynamics of the Cold War and how those political tensions affected the animation industry in both the US and in the Eastern Bloc And for animation novices and enthusiasts alike Animation Behind the Iron Curtain also offers breakout sections to explain many of the techniques and aesthetic considerations that go into this fascinating art form This book is a must read for anyone interested in the Cold War era and really cool animated films

Fatherhood and Its Representations in Middle English Texts Rachel E. Moss, 2013 The figure and role of the late medieval father is reappraised through a close reading of a range of documents from the period including both letters and romances Late medieval English society placed great weight on the practices of primogeniture patrilineal descent and patriarchal government and the significance of the father had cultural resonance beyond the rule of law Yet despite aburgeoning interest in both the family and gender the father has to date received little attention from medievalists This book takes an interdisciplinary approach to the analysis of the fictions of fatherhood the ideological constructs that underpinned late medieval conceptions of fathers and patriarchy Its focus on gentry and mercantile readers and writers also offers new insights into the literary culture of late medieval England by considering how texts were produced and received within gentry and bourgeois communities and demonstrates the ability of texts to not only reflect but also shape hegemonic norms and cultural anxieties Through close examination of late medieval letters and romances it shows how the father was the dominant figure not only of medieval domestic life but also of the medieval imagination Dr RACHEL E MOSS is a Lecturer in History at the University of Northampton
