Meaninglessness M. A. Casey,2002-01-01 What would the world be like if we no longer needed meaning Australian

sociologist Michael Casey's revealing work charts the collapse of the metaphysical world and the innate human need for meaning. With the decline of Christianity and the demise of secular universalism in the west, the meaning and value of metaphysical culture has been replaced by an entirely new post metaphysical world. In *Meaninglessness*, Casey revisits the social theory of Nietzsche, Freud, and Rorty in order to conceive how this post metaphysical culture may take shape in the third millennium. Framing questions of enduring significance to contemporary social and political theory in a new methodological light, this work will appeal to scholars and general readers interested in sociology, post modernism, cultural studies, political theory, and philosophy.

Agricultural Bioeconomy Chetan Keswani, Cristina Possas, Emmanuel Koukios, Davide Viaggi, 2022-11-29 *Agricultural Bioeconomy: Innovation and Foresight in the Post COVID Era* presents recent advancements in biotechnology exploring the optimal utilization of technologies to provide rapid and impactful economic recovery and sustainable resources in a future that will bear the mark of COVID 19. Understanding that there is a necessary balance between risk and reward, this book provides a foundational hypothesis as well as operational direction for addressing the commercialization and regulatory issues in a bio based economy where agricultural output is at the core. By presenting adaptable practices to successfully establish and progress agri based global bioeconomies, the book features a new paradigm focused on technological foresight and response to future risks and disasters. Key considerations include assessing and managing the urban bioeconomy, climate change mitigation, biofuels, and bioenergy, GMOs, and employment generation. This book provides the solid next step toward future proofing global economies using a combination of agricultural technologies and economic goals. Professionals and advanced students focused on the production of renewable biological resources and their conversion into value added products, including food, feed, bio based products, and bioenergy, will find this book useful. Addresses recent issues emerging in agro based economies. Empowers utilization of biotechnology to address worldwide ecological issues. Presents adaptable risk management approaches to the adoption of socially and financially valuable agri based technologies.

More Books Boston Public Library, 1928 *Think, Learn, Succeed* Dr. Caroline Leaf, 2018-08-07 Our thought lives have incredible power over our mental, emotional, and even physical well being. In fact, our thoughts can either limit us to what we believe we can do or release us to experience abilities well beyond our expectations. When we choose a mindset that extends our abilities rather than placing limits on ourselves, we will experience greater intellectual satisfaction, emotional control, and physical health. The only question is how. Backed by up to date scientific research and biblical insight, Dr. Caroline Leaf empowers readers to take control of their thoughts in order to take control of their lives. In this practical book, readers will learn to use The 5 step Switch on Your Brain Learning Program to build memory and learn effectively. The Gift Profile to discover the unique way they process information. The Mindfulness Guide to optimize their thought life and find their inner resilience. Dr. Leaf shows readers how to combine these powerful tools in order to improve memory, learning, cognitive and intellectual performance, work performance, physical performance, relationships, emotional health, and most

importantly a meaningful life well lived Each of us has significant psychological resources at our fingertips that we can use in order to improve our overall well being Dr Leaf shows us how to harness those resources to unlock our hidden potential
