Debuts Intro French Siskin, 2002-03 *Task-based grammar teaching of English* Susanne Niemeier, 2017-10-23 The focus on communication in TBLT often comes at the expense of form. In this book the task based approach is enhanced and coupled with insights into cognitive grammar an approach which sees grammar as meaningful. The book shows how grammar teaching can be integrated into a communicative lesson in a non explicit way i.e. by the backdoor. The learners are involved in situations that they may also encounter outside their classrooms and they are given communicative tasks they are to work on and solve usually with a partner or in small groups. What teachers need to invest for preparing such lessons is their own creativity as they have to come up with communicative situations which guide the learners into using a specific grammatical structure. The book first discusses the didactic and the linguistic theories involved and then translates these theoretical perspectives into actual teaching practice focusing on the following grammatical phenomena tense aspect modality conditionals passive voice prepositions phrasal verbs verb complementation pronouns and articles. *Learning to Plan Modern Languages Lessons* Cheryl Mackay, 2019-05-03 Learning to Plan Modern Languages Lessons contains a wealth of guidance and ideas for those learning to teach in secondary schools. Drawing on extensive experience and research in the field it offers detailed explanation of basic lesson planning methods and the principles that underpin them illustrated by worked examples of well planned lessons.
