**Successful Case-based Reasoning Applications** Stefania Montani, 2010-09-07 Case based reasoning CBR is an Artificial Intelligence AI technique to support the capability of reasoning and learning in advanced decision support systems CBR exploits the specific knowledge collected on previously encountered and solved situations which are known as cases In this book we have collected a selection of

papers on very recent CBR applications These after an in depth analysis of their specific application domain needs propose proper methodological solutions and give encouraging evaluation results which have in some cases led to the commercialization step The collected contributions demonstrate the capability of CBR to solve or handle issues which would be too difficult to manage with other classical AI methods and techniques such as rules or models The heterogeneity of the involved application domains indicates the flexibility of CBR and its applicability in all those fields where experiential knowledge is readily available
