*Javascript - 50 functions and tutorial* Nino Paiotta,2015-01-09 The content of this text is not intended as a programming manual for those who want to start learning to program starting from scratch but it is a manual that a beginner or intermediate programmer of such language should keep on hand in fact it contains 50 examples which can be easily inserted into a web document and then find the solution at the appropriate time or control the shape and the syntax of a script etc because sometimes even the most experienced programmers can get out of how to proceed to set up a function or have difficulties in creating an event All the examples in this text being very simple and can be easily modified so adaptable to your web files One important thing especially for the less experienced and to pay attention to uppercase and lowercase letters when you browse these examples as in when and also specified in the following javascript is case sensitive language and then the difference between lowercase and uppercase letters      **Javascript - 50 funzioni e tutorial** Nino

Paiotta,2015-01-09 Il contenuto di questo testo non vuole essere un manuale di programmazione per chi vuole iniziare ad imparare a programmare cominciando da zero ma un manuale che un programmatore principiante o intermedio di tale linguaggio dovrebbe tenere a portata di mano infatti esso contiene 50 esempi i quali possono essere inseriti facilmente in un documento web e quindi trovare la soluzione al momento opportuno oppure controllare la forma e la sintassi di uno script ecc visto che talvolta anche ai programmatori pi esperti pu sfuggire di come procedere per impostare una funzione o avere difficolta nel creare un evento Tutti gli esempi presenti in questo testo essendo molto semplici sono facilmente modificabili e quindi adattabili per i propri file web      Learning JavaScript Tim Wright,2013
