Harvey,2008-01-10 Combining 25 years of clinical research and teaching experience Dr Lisa Harvey provides an innovative 5
step approach to the physiotherapy management of people with spinal cord injury Based on the International Classification of
Functioning this approach emphasises the importance of setting goals which are purposeful and meaningful to the patient
These goals are related to performance of motor tasks analysed in terms of 6 key impairments The assessment and treatment
performance of each of these impairments for people with spinal cord injury is described in the following chapters training
motor tasks strength training contracture management pain management respiratory management cardiovascular fitness
training Dr Harvey develops readers problem solving skills equipping them to manage all types of spinal cord injuries Central
to these skills is an understanding of how people with different patterns of paralysis perform motor tasks and the importance
of different muscles for motor tasks such as transfers and bed mobility of people wheelchair mobility hand function for people
with tetraplegia standing and walking with lower limb paralysis This book is for students and junior physiotherapists with
little or no experience in the area of spinal cord injury but with a general understanding of the principles of physiotherapy It
is also a useful tool for experienced clinicians including those keen to explore the evidence base that supports different
