Mystery Unveiled Paul C. H. Lim,2012-08-13 Winner of the Sixteenth Century Society s Roland H Bainton Prize for History or Theology Paul C H Lim offers an insightful examination of the polemical debates about the doctrine of the Trinity in seventeenth century England showing that the philosophical and theological re configuration of this doctrine had a significant impact on the politics of religion in the early modern period Lim s analysis of these heated polemics shows how Trinitarian God talk became untenable in many ecclesiastical and philosophical circles leading to the emergence of Unitarianism He demonstrates that those who continued to uphold Trinitarian doctrine articulated their piety and theological perspectives in an increasingly secularized culture of discourse Drawing on both unexplored manuscripts and well known treatises of Continental and English provenance he uncovers the complex layers of the polemic from biblical exegesis to reception history of patristic authorities from popular religious radicalism during the Civil War to Puritan spirituality from Continental Socinians to English anti Trinitarians who claimed an independent theological identity from the notion of the Platonic captivity of primitive Christianity to that of Plato as Moses Atticus Among this book s surprising findings are that Anti Trinitarian sentiment arose in a Puritan ambience in which biblical literalism overrode rationalistic presuppositions and that theology and philosophy were more closely connected during this period than previously thought *Mystery Unveiled* fills a significant lacuna in early modern English intellectual history *Impending Inquisitions in Humanities and Sciences* Mohan Varkolu,MP Mallesh,Kranthi Priya Oruganti,2024-07-22 In an era of increasing specialization the need for cross disciplinary dialogue demands an integrated approach that transcends the artificial boundaries between disciplines *Impending Inquisitions in Humanities and Sciences* presents a groundbreaking tapestry of cutting edge research across the spectrum of humanities and sciences This volume presents a meticulously curated selection of research papers presented at the conference a forum where scholars from diverse fields English Mathematics Physics and Chemistry converged to engage in rigorous dialogue and push the boundaries of knowledge From the nuanced interpretations of literary texts to the elegant formulations of mathematical models from the awe inspiring revelations of physics to the meticulous experiments of chemistry each contribution challenges assumptions and provokes fresh perspectives This collection serves as a valuable resource for scholars students and academic fraternity with an insatiable curiosity about the world around us Oxwagon Sentinel Christoph Marx,2008 This new approach to the social history of Afrikaner nationalism looks into the diverse causes

for the rise of a political movement which was to shape South African history profoundly during the 20th Century In the 1930s Afrikaner nationalism transformed itself from a populist into a cultural nationalism becoming politically radicalised at the same time The nationalist symbol of the oxwagon was used not only by the National Party but also by the extra and antiparliamentarian mass movement Ossewabrandwag which was founded in 1939 Drawing on a broad range of archival resources the social history of this extremist organisation is analysed showing local and regional differences The Ossewabrandwag as a nationalist movement counted a considerable part of the Afrikaans white population among its members Therefore the Ossewabrandwag can be understood appropriately only in the context of radical Afrikaner nationalism Given that the potential for political radicalisation in the white South African population was considerable ideological influences from overseas played merely an additional role The book looks into the reasons for the mass participation in the Ossewabrandwag In addition it analyses the organisation's fight with the National Party and its illegal and treasonable activities In this context the book discusses which ideological influences on the apartheid policy can be identified as coming from organised right wing extremism Enlightened Absence Ruth Salvaggio,1988 Staging and Performing Translation R. Baines,C. Marinetti,M. Perteghella,2016-02-02 This exploration of the territory between theory and practice in contemporary theatre features essays by academics from theatre and translation studies and delineates a new space for the discussion of translation in the theatre that is international critical and scholarly while rooted in experience and understanding of theatre practices **Translation** Susan Bassnett,2013-10-01 In a time when millions travel around the planet some by choice some driven by economic or political exile translation of the written and spoken word is of ever increasing importance This guide presents readers with an accessible and engaging introduction to the valuable position translation holds within literature and society Leading translation theorist Susan Bassnett traces the history of translation examining the ways translation is currently utilised as a burgeoning interdisciplinary activity and considers more recent research into developing technologies and new media forms Translation displays the importance of translation across disciplines and is essential reading for students and scholars of translation literary studies globalisation studies and ancient and modern languages **The Chesterian** ,1958 Blackfriars ,1925 **The Seven Years War in Europe** Franz A.J. Szabo,2013-11-05 In this pioneering new work based on a thorough re reading of primary sources and new research in the Austrian State Archives Franz Szabo presents a fascinating reassessment of the continental war Professor Szabo challenges the well established myth that the Seven Years War was won through the military skill and tenacity of the King of Prussia often styled Frederick the Great Instead he argues that Prussia did not win but merely survived the Seven Years War and did so despite and not because of the actions and decisions of its king With balanced attention to all the major participants and to all conflict zones on the European continent the book describes the strategies and tactics of the military leaders on all sides analyzes the major battles of the war and illuminates the diplomatic political and financial aspects of the conflict
