## HOW TO DEAL WITH MANIPULATIVE PEOPLE:

### **Disengage.**

Manipulators typically try to extract a particular emotional response from you, but you must not give in to their demands. For example, if a manipulative friend has a habit of flattering you before asking for an impossible favor, don't give in- reply politely and change the topic of conversation.

### **Be confident.**

A devious thing manipulators often do is make another person doubt their intuition, abilities and reality. If you ever experience this, stick to your opinions. And if this happens regularly in your relationships, it's a sign that maybe you should leave.

### **Address the situation.**

Call them out for their manipulative behaviors at the time it is happening. When you speak about it, focus on how their behavior is affecting you rather than using accusatory remarks, but emphasize that their tactics won't work on you. This may aid in reaching a resolution.

It is also important to keep in mind that each and every one of us has a dark or evil side of our own psychology. Within this book the following areas are covered with the aim to illuminate their significances in our everyday lives: the principles of dark psychology, dark personality traits, studies of dark psychology, mind reading, cognitive psychology, modes of persuasion, controlling emotions and social engineering and leadership, Manipulation. Do you know people who are forever pushing your buttons to get you to do, think and act in a way you wouldn't otherwise do for fulfilling their personal agenda? Don't you wish you also possessed the super power of persuasion, influence and manipulation that can allow you to get people to do exactly what you want? Don't you wish you possessed the ability to convince, influence, manipulate and persuade people to do, think and act as you want them to? Imagine how wonderful it would be if you could get people to act and think in the larger interest of a situation or humanity. Manipulation isn't always the negative thing; it is often made out to be. Think of it as a tool that can be used to create as well as destroy. The choice is yours. Though manipulation has fundamentally negative connotations, it can also be harnessed to accomplish positive outcomes. Using the powerful tips, techniques and strategies mentioned in this book, a person can become an effective influencer, manipulator, persuader, negotiator, salesperson and orator. Here are some of the things you will take back from the book: Shockingly effective psychological techniques for manipulating, persuading and influencing people; The art of speaking and communicating in a way that people can't help but listen to every word you say; Proven verbal and non-verbal communication skills to enhance your manipulation prowess; How manipulators use Neuro-Linguistic Programming to change a person's entire thought process; Detecting manipulation in your everyday life and personal relationships and strategies to safeguard against it; Clever techniques for outsmarting manipulators; Sharpen the art of influencing, manipulating and persuading people today by mastering the finer strategies of manipulation.
