Safe Riding

From the get-go, operation should teach how you can be certain to ride safely in all safe operating conditions. Practice to expect or prevent the vehicle properly increases the possibility of an accident or equipment damage. Read this chapter for a list of safe riding practices.

• This vehicle is designed to carry the operator and a passenger.

• The failure of materials to detect and recognize vehicles in traffic is the responsibility of the operator. All motorcycles/vehicles accidents. Many accidents have been caused by an inexperienced driver who did not use the controls. Riding without a helmet is dangerous. It is the most effective in reducing the chance of any type of accident. Therefore:

• Wear a properly secured helmet.

• Use safety caution when you are approaching and passing through intersections and roundabouts.

• Observe the speed limit and never, never, never exceed the speed limit.

• Always signal before turning or changing lanes. Make sure that other vehicles can see you.

• The position of the operator and passenger is important for proper control.

• This operator should keep both hands on the front handle and both feet on the operator's footrests during operation in normal riding conditions.

• The operator should always hold onto the handle bar, the seat, or the footrest if necessary, with both hands and both feet on the operator's footrests.
