

# SAFETY TIPS ON MATERIAL HANDLING & LIFTING

**1** Check the weight to be sure that you are comfortable with the lift. Do not lift anything you think is too heavy!

**2** Use handles, handholds or cutouts if available

**3** Use carts with large wheels. A larger wheel rolls easily and requires less force over door thresholds, elevator gaps etc. Small wheels get caught on holes and other floor irregularities.

**4** Bend your knees and with your back straight, lift the load with a good grip and keep the load close to the body. Do not lift and twist

**5** Get help and coordinate the move with your partner

**6** Use lift assist equipment or devices whenever possible
