Thoroughly familiarize with the vehicle and all of its controls.

Many accidents have been caused by error of the vehicle operator. A typical error made by the operator is moving back on a turn due to excessive speed or sudden - correcting insufficient lean angle for the speed.

Always stay the speed limit and never, never faster than recommended.

Always signal before turning or changing lanes. Make sure that other vehicles can see you.

The position of the operator and passenger is important for proper control.

The operator should keep both hands on the front handle and both feet on the operator footrests during operation to maintain control of the vehicle.

The passenger should always hold onto the operator, the seat, or the footrest. If necessary, with both hands and both feet on the passenger footrest.
