

Marriott Global Standard Operating Procedures (SOP)

Article No. 2022-0

SOP Overview: All identified business critical hotel systems are required to have a process for creating periodic data and system file backups. In the event of a major system failure or corruption of working data files, the backup must be available to deploy for system and/or data restoration.

SOP: BC01 – System Backup Procedures	
Objective	Business Continuity and Disaster Recovery
Audience	Global IT System Managers
Discipline Expert	IT Mid-Range Infrastructure Server Delivery Team
SOP Approver	Global Technology Council
Review Cycle:	☒ Annual ☐ Every 2 Years ☐ As needed
Published:	May 19, 2009
Effective Date:	May 19, 2009
Last Revised:	March 24, 2016
Last Reviewed:	March 24, 2016

Key Requirements & Related Standards
<u>Hardware:</u> Backup media and hardware must be procured according to the Marriott standards.
<u>Software:</u> - The Marriott certified tape backup solution must be used and on a version currently supported by the vendor. - Backups to be configured and encrypted using standard, documented backup procedures. - The use of a Marriott approved cloud backup solution can be an alternative backup method. This option may be more costly (i.e. additional bandwidth) and may not be available in all areas.
<u>Backup Process:</u> - Backup job history (printed or electronic format) will be maintained for a minimum 3 months. - Ensure the overall backup plan is included in the property's Business Continuity Plan (MIP-30) and includes a description of the following: - Description of process used to create database backups and/or backup data specified by application vendor and the business stakeholders. - Written instructions for completing business critical full system backup (when required). - The backup schedule will be based on the type of data being backed-up and include both partial and full backups at appropriate and logical time intervals. - Individual or position responsible for: - Configuring the backup - Performing the backup - Modifying the backup plan - Application and/or data recovery. - The IT Field Associate is responsible for the administration of the systems backup plan and ensuring the existence of an application and data backup plan.

Great American Hoteliers Stanley Turkel, 2009 During the thirty years prior to the Civil War Americans built hotels larger and more ostentatious than any in the rest of the world These hotels were inextricably intertwined with American culture and customs but were accessible to average citizens As Jefferson Williamson wrote in The American Hotel Knopf 1930 hotels were perhaps the most distinctively American of all our institutions for they were nourished and brought to flower solely in American soil and borrowed practically nothing from abroad Development of hotels was stimulated by the confluence of travel tourism and transportation In 1869 the transcontinental railroad engendered hotels by Henry Flagler Fred Harvey George Pullman and Henry Plant The Lincoln Highway and the Interstate Highway System triggered hotel development by Carl Fisher Ellsworth Statler Kemmons Wilson and Howard Johnson The airplane stimulated Juan Trippe John Bowman Conrad Hilton Ernest Henderson A M Sonnabend and John Hammons My research into the lives of these great hoteliers reveals that none of them grew up in the hospitality business but became successful through their intense on the job experiences My investigation has uncovered remarkable and startling true stories about these pioneers some of whom are well known and others who are lost in the dustbin of history

Delivering Quality Service Valarie A. Zeithaml, 2010-05-11 Excellence in customer service is the hallmark of success in service industries and among manufacturers of products that require reliable service But what exactly is excellent service It is the ability to deliver what you promise say the authors but first you must determine what you can promise Building on seven years of research on service quality they construct a model that by balancing a customer's perceptions of the value of a particular service with the customer's need for that service provides brilliant theoretical insight into customer expectations and service delivery For example Florida Power Light has developed a sophisticated computer based lightening tracking system to anticipate where weather related service interruptions might occur and strategically position crews at these locations to quicken recovery response time Offering a service that customers expect to be available at all times and that they will miss only when the lights go out FPL focuses its energies on matching customer perceptions with potential need Deluxe Corporation America's highly successful check printer regularly exceeds its customers expectations by shipping nearly 95% of all orders by the day after the orders were received Deluxe even put U S Postal Service stations inside its plants to speed up delivery time Customer expectations change over time To anticipate these changes Metropolitan Life Insurance Company regularly monitors the expectations and perceptions of their customers using focus group interviews and the authors 22 item generic SERVQUAL questionnaire which is customized by adding questions covering specific aspects of service they wish to track The authors groundbreaking

model which tracks the five attributes of quality service reliability empathy assurance responsiveness and tangibles goes right to the heart of the tendency to overpromise By comparing customer perceptions with expectations the model provides marketing managers with a two part measure of perceived quality that for the first time enables them to segment a market into groups with different service expectations
