Named One of the 25 Most Influential Cookbooks From the Last 100 Years by The New York Times. The original guide to kraut, kombucha, kimchi, kefir and kvass, mead, wine and cider, pickles and relishes, tempeh, koji, miso, sourdough and so much more. Winner of the James Beard Foundation Book Award for Reference and Scholarship and a New York Times bestseller with more than a quarter million copies sold. *The Art of Fermentation* is the most comprehensive guide to do it yourself home fermentation ever published. Sandor Katz presents the concepts and processes behind fermentation in ways that are simple enough to guide a reader through their first experience making sauerkraut or yogurt and in depth enough to provide greater understanding and insight for experienced practitioners. While Katz expertly contextualizes fermentation in terms of biological and cultural evolution, health and nutrition and even economics, this is primarily a compendium of practical information: how the processes work, parameters for safety, techniques for effective preservation, troubleshooting and more. With two color illustrations and extended resources, this book provides essential wisdom for cooks, homesteaders, farmers, gleaners, foragers and food lovers of any kind who want to develop a deeper understanding and appreciation for arguably the oldest form of food preservation and part of the roots of culture itself. Readers will find detailed information on fermenting vegetables, sugars into alcohol, meads, wines and ciders, sour tonic beverages, milk, grains and starchy tubers, beers and other grain-based alcoholic beverages, beans, seeds, nuts, fish, meat and eggs, as well as growing mold cultures, using fermentation in agriculture, art and energy production, and considerations for commercial enterprises. Sandor Katz has introduced what will undoubtedly remain a classic in food literature and is the first and only of its kind: The bible for the D.I.Y. set, detailed instructions for how to make your own sauerkraut, beer, yogurt and pretty much everything involving microorganisms. The New York Times Named a Best Gift for Gardeners by New York Magazine. *The Self-Sufficiency Handbook* Alan Bridgewater, Gill Bridgewater, 2011-02-15. Anyone considering a shift to a greener way of living must get this inspirational and practical guide. With easy-to-read layouts and simple text, it runs the full ecological gamut from geothermal heating to crop rotation to soap making. The Bridgewaters, well-regarded garden writers, help readers answer questions such as how much land they really require, whether or not to depend entirely on natural forms of energy and which farm animals will best meet their needs. There's practical information on building an insulated flue pipe chimney, identifying edible wild plants and composting with worms. In addition to recipes for jams, rhubarb wine and other delicious foods, three A-Z sections offer planting and harvesting instructions for vegetables and salad crops, fruits and herbs.
