Montessori Math Manipulatives and the Minnesota State Math Standards for Grade 2 Numbers and Operations: Alignment and Testing Danielle Blehm, 2016 The Montessori methodology is becoming more prevalent in public elementary schools Within a public school there are many standard requirements that need to be met for students at each grade level Today many students are being tested to assess if they are learning what is required by the State Standards Because the Montessori methodology teaches students with differentiated and individualized instruction many wonder if the Montessori methodology covers all State Standard requirements Does the Montessori Math Curriculum meet the Minnesota State Math Standard requirements This qualitative study was performed in a public Montessori school with nine second grade students learning mathematical skills that aligned with the Minnesota State Math Standard Instruction took place through the use of Montessori manipulatives The assessments given to the students were the same assessments that other second grade students in this district were given for this standard Students were given Montessori lessons and manipulatives aligned with the Minnesota State Math Standard Numbers and Operations for Grade 2 In the example of the learning target I can use fact families to understand addition and subtraction students pre test score was 59.3% and increased to 77.7% in the post instruction test We can show if the Montessori methodology teaches students what is required by the State Standards by further aligning Montessori lessons and use of manipulatives to those standards while using assessments that traditional school use

Classroom-Ready Rich Math Tasks, Grades 2-3 Beth McCord Kobett, Francis (Skip) Fennell, Karen S. Karp, Desiree

Harrison, Barbara Ann Swartz, 2021-06-02 A book of 50 flexible easy to implement tested and proven supplemental rich math tasks with lesson plans and facilitation guidance for Grades 2-3 Diversified Teaching Strategies for Early Childhood Classrooms J. Amos Hatch, 2025-07-31 This book aims to broaden the teaching repertoires of pre-service and in-service early childhood teachers so they can better meet the needs of the children they teach. Covering 16 early childhood teaching strategies ranging from traditional play-based approaches through direct teaching and technology-assisted instruction to postmodern methods, each chapter focuses on a different pedagogical approach, explaining what it is, why it's important, and how it can be implemented in Pre-K-3 classrooms. Chapters conclude with detailed examples of how the strategies can be utilized to cover specific instructional objectives drawn from published standards. Diversified Teaching Strategies for Early Childhood Classrooms is essential reading for undergraduate students studying early childhood education as well as graduate students, early childhood teacher educators, and any practicing Pre-K-Grade 3 teachers. It offers readers a richer set of tools for making good decisions about how to teach real content in ways that are effective and meet the needs of young children in a complex and rapidly changing world. Comprehensive Multicultural Education in the 21st Century Brandi Hinnant-Crawford, C. Spencer Platt, Christopher Newman, Adriel A. Hilton, 2019-04-01 Multicultural education has become its own discipline, developed on the shoulders of the work of giants who argued its merit during the attacks of opponents who believed assimilation was the purpose of state-sponsored education. In an age of rising populism and nationalism throughout the Western world, again questioned is the merit of multicultural education. In the shadows of Brexit and an America First agenda, where migration patterns across the world have led to demographic shifts, it is evident even in the richest countries in the world that gaps in opportunity and subsequently achievement still exist. Disparities in achievement lead some to question whether multicultural education works, and others to revert to old notions that ethnically and linguistically marginalized students are in fact deficient. The scholars here believe in the untapped potential of all children and illuminate how educational structures have muffled the cultivation of that potential. Contributors argue the goals of multicultural education have not been achieved in part due to the piecemeal application of its tenants. The scholarship in this volume illustrates the state of multicultural education and articulates what educators committed to equity, inclusion, and a more just society must do to ensure the goals of multicultural education survive in the current age. The authors of these chapters bridge foundational knowledge with contemporary understandings, making the work both accessible for novices and beneficial for the authorities on multicultural education. With the diverse cast of contributors and topics ranging from mathematics instruction to discipline practices, this volume provides thoughtful discourse on issues of access, access to curricular content, access to opportunities to learn, as well as impediments to access. Containing chapters that speak to discipline-specific pedagogical practices, the structures of schooling, teacher education, and research methodologies, the collected work encourages scholars and practitioners to not be discouraged in the age of retrenchment. **Diverse Families, Desirable Schools** Mira

Debs,2021-03-09 In *Diverse Families Desirable Schools* Mira Debs offers a richly detailed study of public Montessori schools which make up the largest group of progressive schools in the public sector As public Montessori schools expand rapidly as alternatives to traditional public schools the story of these schools Debs points out is a microcosm of the broader conflicts around public school choice Drawing on historical research interviews with public Montessori educators and ethnographic case studies Debs explores the forces that pull intentionally diverse progressive schools toward elitism At the heart of Debs s book is a thoughtful analysis of the notion of fit between parents and schools an idea that is central to school choice which is often marketed as an opportunity for parents to find the perfect fit for their kids By exploring parents varied motivations in choosing these schools and observing how families experience or fail to experience a good fit after having chosen a particular school Debs makes an original contribution to the literature on school choice and sheds light on the dilemmas entailed in maintaining diversity in progressive charter and magnet schools
