A More Perfect Union, 1999 **A More Perfect Union [kit].: A more perfect union**, 1991 *A More Perfect Union*
Linda Sargent Wood, 2012-09-01 In 1962 when the Cold War threatened to ignite in the Cuban Missile Crisis when more nuclear test bombs were detonated than in any other year in history Rachel Carson released her own bombshell *Silent Spring* to challenge society's use of pesticides To counter the use of chemicals and bombs the naturalist articulated a holistic vision She wrote about a web of life that connected humans to the world around them and argued that actions taken in one place had consequences elsewhere Thousands accepted her message joined environmental groups flocked to Earth Day celebrations and lobbied for legislative regulation Carson was not the only intellectual to offer holistic answers to society's problems This book uncovers a sensibility in post World War II American culture that both tested the logic of the Cold War and fed some of the twentieth century's most powerful social movements from civil rights to environmentalism to the counterculture The study examines important leaders and institutions that embraced and put into practice a holistic vision for a peaceful healthful and just world nature writer Rachel Carson structural engineer R Buckminster Fuller civil rights leader Martin Luther King Jr Jesuit priest and paleontologist Pierre Teilhard de Chardin humanistic psychologist Abraham Maslow and the Esalen Institute and its founders Michael Murphy and Dick Price Each looked to whole systems instead of parts and focused on connections interdependencies and integration to create a better world Though the 60s dreams of creating a more perfect world were tempered by economic inequalities political corruption and deep social divisions this holistic sensibility continues to influence American culture today *Home and School Reading and Study Guides* Donna M. Lusardi, Rosemarie Kent, 2007 Waging War on Trial Brian R. Dirck, 2003-06-25 A thought provoking and engaging guide to the legal moral and political issues that arise when the United States goes to war From the American Revolution to the Bush administration's new type of war on terror *Waging War on Trial* views warfare from a legal social cultural and political standpoint Included are homefront debates during major hostilities brushfire incidents and how the events of September 11th have shaped our domestic wartime policy The battle continues today as the President and Congress debate over who begins and ends military operations Concerns about civil liberties the draft and internal security are as relevant today as during the Civil War Questions arise on how dissenters and minorities are treated and if America can legally control the behavior of our soldiers It's an intricate interplay between war and America's institutions *The Cross Unveiled* Diane Y. Clay, 2022-08-01 For those who are not Christians this comes to you so that you also can take comfort in the knowledge that the forces of the enemy of our souls are under the complete control of God and can only act in ways He allows Jesus came to set the captives free and to give up himself as a ransom for our sins to give us hope that in knowing him all things are possible Just as in the days of Daniel God who saved the three Hebrew boys from burning in a fiery furnace sent his Son to rescue them This same Jesus was sent again to rescue us from our sins through the cross and prevented us from spending eternity in

a burning hell At that time the Babylonian king built a statue of himself and he sent out a decree that everyone should bow down before it When passing Shadrach Meshach and Abednego refused because even though they were in exile from Israel they knew what God had told them that bowing down to false gods was a sin Daniel 3 2129 NIV says So these men wearing their robes trousers turbans and other clothes were bound and thrown into the blazing furnace The king's command was so urgent and the furnace so hot that the flames of the fire killed the soldiers who took up Shadrach Meshach and Abednego and these three men firmly tied fell into the blazing furnace Then King Nebuchadnezzar leaped to his feet in amazement and asked his advisers Weren't there three men that we tied up and threw into the fire They replied Certainly your Majesty He said Look I see four men walking around in the fire unbound and unharmed and the fourth looks like a son of the gods Nebuchadnezzar then approached the opening of the blazing furnace and shouted Shadrach Meshach and Abednego servants of the Most High God come out Come here So Shadrach Meshach and Abednego came out of the fire and the satraps prefects governors and royal advisers crowded around them They saw that the fire had not harmed their bodies nor was a hair of their heads singed their robes were not scorched and there was no smell of fire on them Then Nebuchadnezzar said Praise be to the God of Shadrach Meshach and Abednego who has sent his angel and rescued his servants They trusted him and defied the king's command and were willing to give up their lives rather than serve or worship any god except their own God Therefore I decree that the people of any nation or language who say anything against the God of Shadrach Meshach and Abednego be cut into pieces and their houses be turned into piles of rubble for no other god can save in this way

Educational Review ,1926 *Therapeutic Revolutions* Martin Halliwell, 2013-04-19 *Therapeutic Revolutions* examines the evolving relationship between American medicine psychiatry and culture from World War II to the dawn of the 1970s In this richly layered intellectual history Martin Halliwell ranges from national politics public reports and healthcare debates to the ways in which film literature and the mass media provided cultural channels for shaping and challenging preconceptions about health and illness Beginning with a discussion of the profound impact of World War II and the Cold War on mental health Halliwell moves from the influence of work family and growing up in the Eisenhower years to the critique of institutional practice and the search for alternative therapeutic communities during the 1960s Blending a discussion of such influential postwar thinkers as Erich Fromm William Menninger Erving Goffman Erik Erikson and Herbert Marcuse with perceptive readings of a range of cultural text that illuminate mental health issues among them *Spellbound Shock Corridor Revolutionary Road* and *I Never Promised You a Rose Garden* this compelling study argues that the postwar therapeutic revolutions closely interlink contrasting discourses of authority and liberation *El-Hi Textbooks & Serials in Print*, 2003 ,2003 **Patriotism Is Not Enough** Steven F. Hayward, 2017-02-21 This book is a lively intellectual history of a small circle of thinkers especially but not solely Harry Jaffa and Walter Berns who challenged the mainstream liberal consensus of political science and history about how the American Founding should be understood Along the way they changed the course of the conservative movement and had a significant impact on shaping contemporary political debates from constitutional interpretation civil rights to the corruption of government today Most importantly these thinkers explain the deep reasons for patriotism why we should love America not just because it is our country but because it is a free and just country **A Book**

of English Literature Franklyn Bliss Snyder, 1919 **A Book of English Literature, Selected and Ed** Franklyn Bliss Snyder, Robert Grant Martin, 1916 **Interpreting the Founding** Alan Gibson, 2010-02-02 Now widely regarded as the best available guide to the study of the Founding the first edition of *Interpreting the Founding* provided summaries and analyses of the leading interpretive frameworks that have guided the study of the Founding since the publication of Charles Beard s *An Economic Interpretation of the Constitution* in 1913 For this new edition Gibson has revised and updated his study

including his comprehensive bibliography and also added a new concluding chapter on the Unionist Paradigm or Federalist Interpretation of the Constitution. As in the original work, Gibson argues in the new edition that scholarship on the Founding is no longer steered by a single dominant approach or even by a set of questions that control its direction. He features insightful extended discussions of pioneering works by leading scholars of the Founding, including Louis Hartz, Bernard Bailyn, Gordon Wood, and Garry Wills, that best exemplify different schools of interpretation. He focuses on six approaches that have dominated the modern study of the Founding: Progressive, Lockean, liberal, Republican, Scottish Enlightenment, multicultural, and multiple traditions approaches, before concluding with the Unionist or Federalist paradigm. For each approach, Gibson traces its fundamental assumptions, revealing deeper ideological and methodological differences between schools of thought that on the surface seem to differ only about the interpretation of historical facts. While previous accounts have treated the study of the Founding as the sequential replacement of one paradigm by another, Gibson argues that all of these interpretations survive as alternative and still viable approaches. By examining the strengths and weaknesses of each approach and showing how each has simultaneously illuminated and masked core truths about the American Founding, he renders a balanced account of the continuing and very vigorous debate over the origins and foundations of the American republic. Brimming with intellectual vigor and based on both a wide and deep reading in the voluminous literature on the subject, Gibson's new edition is sure to reinforce this remarkable book's reputation while winning new converts to his argument.

Learning from the Past Diane Ravitch, Maris A. Vinovskis, 1995-02. Many Americans view today's problems in education as an unprecedented crisis brought on by contemporary social ills. In *Learning from the Past*, a group of distinguished educational historians and scholars of public policy reminds us that many of our current difficulties, as well as recent reform efforts, have important historical antecedents. What can we learn they ask from nineteenth century efforts to promote early childhood education or debates in the 1920s about universal secondary education or the curriculum reforms of the 1950s. Reflecting a variety of intellectual and disciplinary orientations, the contributors to this volume examine major changes in educational development and reform and consider how such changes have been implemented in the past. They address questions of governance, equity, and multiculturalism, curriculum standards, school choice, and a variety of other issues. Policy makers and other school reformers, they conclude, would do well to investigate the past in order to appreciate the implications of the present reform initiatives.
