 daily lives has helped to modernize and improve the way we learn the way we do business the way we communicate with one  
 another and ultimately the way we live But in these modern times which some refer to as the Electronic Gadgets and App  
 Age it has become difficult to know everything about the old and new electronic devices that continue to make the wheels of  
 industry turn in society New innovations appear and then just as quickly become antiquated and obsolete technological  
 advances from the past blend with the present and then like ripples in a lake fade in this fast paced world How can anyone  
 hope to keep up with those changes The breadth of knowledge required is daunting but technology impacts the choices we  
 make for better or worse
