of securitization The Second Edition of The Securitization Markets Handbook is a valuable resource for both experienced
money managers trying to put a securitization strategy into place as well as newcomers looking to acquire a broad and
strong foundation in this discipline This edition takes a close look at the pre and post crash mortgage market and the
mortgage backed securities based on those mortgages as well as other asset backed securities including commercial paper or
credit cards The crash of the subprime market and the failure of the asset backed markets offer an opportunity to learn about
banking finance specifically off balance sheet finance and the many costly mistakes that resulted in one of the most severe
downturns in financial markets With this book you ll discover why certain mortgage and asset backed securities imploded
and others didn t This new edition examines why the market failed and how the next crisis can be averted or made less
severe It also explains why securitization remains a primary source of capital for the mortgage market credit card market
home equity market auto loan market and segments of the commercial paper market Offers an informed overview of how the
securitization market works how to make money in it and what s next for asset and mortgage backed securities after the
crisis Contains new chapters on CDOs and SIVs along with a history of the growth and crash of the subprime market asset
backed securities and home equity lines of credit Written by securitization experts Charles Stone and Anne Zissu Updated to
