

# foreword...

This 1977 Car Shop Manual has been prepared to provide information covering normal service repairs and maintenance for 1977 Ford Passenger Cars manufactured in the United States and Canada. It is divided into five volumes, each covering a specific major area:

- Volume 1 — Chassis
- Volume 2 — Engine
- Volume 3 — Electrical
- Volume 4 — Body
- Volume 5 — Maintenance and Lubrication.

Information in each volume is divided into Groups covering a general system. The table of contents on the cover of each volume indicates the Group title, number, and volume in which each Group is located.

For 1977, the basic part number for components covered in the Group is also included in parenthesis after the Group number.

Example:

<u>Cooling System</u> General System Covered in Group	<u>Group 27</u> Group Number	<u>(8000)</u> Basic Part Number for Cooling System Components
---	---------------------------------	--

Some components covered within a Group do not have the same basic part number. In these cases, more than one basic part number will appear on the Group index.

Example:

<u>Gasoline Engines</u> General System Covered in Group	Group 21	<u>(6000)</u> Basic Part Number for Gasoline Engine Components	&	<u>9000)</u> Intake and Exhaust Manifold Basic Part Number Only
---	----------	---	---	---

For easy reference, information in each Group has been divided into smaller units or Parts. There is one Part for each component in the system, as well as a General Service Part in some Groups to cover procedures common to several components within the Group. In general, each Part contains the Description, Operation, Diagnosis and Testing, Removal and Installation and Disassembly and Assembly procedures for the component covered in the Part. Diagnosis Charts are also included in some Parts to help you systematically locate and correct problems encountered. In most cases, specifications are included at the end of each Part.
